JSS MAHAVIDYAPEETHA

JSS SCIENCE AND TECHNOLOGY UNIVERSITY

SRI JAYACHAMARAJENDRA COLLEGE OF ENGINEERING

- Constituent College of JSS Science and Technology University
- Approved by A.I.C.T.E
- Governed by the Grant-in-Aid Rules of Government of Karnataka
- Identified as lead institution for World Bank Assistance under TEQIP Scheme

AY: 2024-2025

Criteria 1.4.1: Structured feedback for curriculum and its transactions is regularly obtained from stakeholders like Students, Teachers, Employers, Alumni, Academic peers etc.

Feedback analysis report 2023-24

ıe feedback from the stakeholders for the academic year 2023-24 has been collected and analyzed. The following observations were made from the feedback:

1. Alumni have suggested to include internship in the curriculum.
2. Professors have suggested to introduce AI and industry oriented courses.
3. Professors have also expressed to include credits (4/3) based on the subject weightage.
4. Students have suggested to include application oriented electives.

Feedback analysis report 2023-24

ıe feedback from the stakeholders for the academic year 2023-24 has been collected and analyzed. The following observations were made from the feedback:

1. Students have suggested to improve placements.
2. Professors have also suggested few revisions in the course content.

ıe report is submitted for further needful action.

ommittee members:

1. Dr. Hema B P

Action Taken Report (ATR) on the inputs on Curriculum design /Structure by stakeholders held on 07.08.2024 at Department of Biotechnology

Course: PG (M Sc in Biotechnology)

Sl. No	Agenda	Observation/Discussion	Input/Feedback provided by				Action Taken
			Employer/ Industry	Alumni	Student/ Parent	Teachers	
1.	Result Analysis	Dr. Lakshmi S Presented results in the BOS meeting					Verified and approved by both External and internal members
2.	Analysis of Not Eligible for SEE cases	Discussed and Approved					
3.	CIE and SEE pattern for theory subjects and lab courses	New pattern of 2024 scheme approved					
4.	Agenda 4 : Gaps identified in the existing curriculum	Professional electives were not streamlined					As per the guidelines from Dean Academic's office, Professional elective subjects were streamlined with a continuity mode from lower semester to higher semester.
5.	Agenda 5 Scheme of Programme M Sc in Biotechnology - 2024	Dr. Hema B P, Presented the scheme for 2024-25 academic year

Stakeholder's Feedback Analysis Report on Curriculum Design for the AY 2024-25

Summary of the Feedback and its Analysis

This report synthesizes feedback on the course design and analyzed to provide a comprehensive overview of strengths and areas for improvement. The University strives to uphold the principles of technical education by imparting quality value based curriculum that unfolds the latest developments in the field of Computer Applications. The stakeholder's feedback play an important role in designing a need based competent curriculum that caters to the growth of Institution. The University has designed questionnaires on curriculum for drawing the insight of the stakeholders' such as Parents, Students, Alumni, Employers and Employee. There are totally 147 responses have been received from all the categories of stakeholders.

1. Alumni's Feedback Analysis

Sl. No	Statements	Excellent	Very Good	Good	Satisfactory	Needs Improvements
1	Curriculum Design: The alumni are given adequate opportunities to participate in the curriculum development.	33.8%	47.0%	16.1%	2.9%	-
2	Curriculum Design: The courses are pertinent to both societal requirements and job opportunities.	39.7%	38.23%	13.23%	5.88%	2.94%
3	Curriculum Design: The curriculum encourages candidates to engage in lifelong learning.	44.11%	30.88%	19.11%	5.88%	-
4	Curriculum Design: The curriculum prepared me adequately for the job roles	100%	-	-	-	-
5	Curriculum Design: The curriculum has adequate courses which develops employability skills.	38.23%	36.76%	14.70%	8.82%	1.47%
6	Curriculum Design: The Curriculum has adequate scope for interdisciplinary electives	38.23%	42.64%	11.76%	7.35%	-
7	Curriculum Design: The curriculum enhanced my capacity for collaboration and communication.	39.7%	41.17%	12.05%	5.88%	-

09.01.2026 17:51

8	Curriculum Design: The curriculum offers adequate balance between theoretical and practical aspects.	41.17%	38.23%	14.70%	5.88%	-
9	Curriculum Design: The curriculum has adequately covered the prerequisites and fundamental skills needed for engineering profession.	38.23%	41.17%	14.70%	5.88%	-
10	Curriculum Design: There is Adequate Involvement of alumni in institute building.	35.29%	42.64%	20.58%	1.47%	-
11	Curriculum Design: The curriculum has courses ensuring adaptability of the programme to Industry.	39.70%	38.23%	19.11%	1.4%	1.4%
12	Course Assessment, Evaluation and Learning Resources: The Academic Resources are adequate to match the curriculum.	36.76%	39.70%	20.58%	2.94%	-
13	Course Assessment, Evaluation and Learning Resources: Assessment and Evaluation pattern are fair and transparent and matches the global requirements.	38.23%	38.23%	17.64%	5.88%	-

2. Students' Feedback Analysis

Sl. No	Statements	Excellent	Very Good	Good	Satisfactory	Needs Improvements
1	The Students are given adequate opportunities to participate in the curriculum development	12.12%	42.42%	39.39%	3.03%	3.03%
2	Course contents are relevant to real life situations and my learning needs.	21.21%	36.36%	33.33%	9.09%	-
3	The co-curricular learning opportunities are adequate to support curricular learning.	21.21%	21.21%	42.24%	9.09%	6.06%
4	The course contents are relevant to the demands of the industry.	18.18%	36.36%	42.42%	3.03%	-

09.01.2026 17:51

11	Curriculum has adequate contents for developing entrepreneur skills.	38.88%	50%	5.55%	5.55%	-
12	Holistic development of ward is adequate.	27.77%	61.11%	11.11%	-	-
13	Student mentoring is adequate.	33.33%	44.44%	22.22%	-	-
14	The Academic Resources are adequate to match the curriculum.	33.33%	55.55%	11.11%	-	-
15	Assessment and Evaluation pattern are fair and transparent.	22.22%	61.11%	16.66%	-	-

The above responses of the stakeholders clearly reveal that about 85% of the stakeholders are happy with the present curriculum.

Action Taken Report

Based on the suggestions given by the stakeholders, the following actions have been taken while designing the curriculum:

Inclusion of New Courses:

- New list of Discipline Core courses have been such as Fundamentals of Artificial Intelligence, Universal Human Values, Fundamentals of Machine Learning, Professional Communication, Entrepreneurship, .NET Technologies, Image Processing and Pattern Recognition.
- New list of Elective courses have been included such as Object Oriented Modeling and Design, Android Application Development, Artificial Intelligence and Robotics, Big Data Analytics, E-Governance and Cyber Security etc.
- New list of Value-based courses have been included such as Green Computing and Innovation & Business Skills

Experiential Learning:

- Integrated Lab with theory courses and Tutorials also have been included in every semester
- As per Alumni's feedback, laboratory examinations are to be conducted explicitly. So it is included in all the lab

Internship or Industrial Exposure

- Students are encouraged to take internship during their project work
- Placement training sessions are conducted explicitly in the higher semesters.

Stakeholder's Feedback Analysis Report on Curriculum Design for the academic year 2024-2025

Summary of the Feedback and its Analysis

This report synthesizes feedback on the course design and analyzed to provide a comprehensive overview of strengths and area for improvement. The University strives to uphold the principles of technical education by imparting quality value based curriculum that unfolds the latest development in the field of Civil Engineering.

The stakeholder's feedback plays an important role in designing a need based competent curriculum that caters to the growth of the institution. The University has designed questionnaires on curriculum for drawing the insights of the stakeholders' such as parents, Students, Alumni, Employers and Employee. A total of 161 responses has been received from all categories of stakeholders.

1. Alumni's Feedback Analysis

Sl.No	Statement	Excellent	Very Good	Good	Satisfactory	Needs Improvement
1	Curriculum Design: The alumni are given adequate opportunities to participate in the curriculum development	25%	45%	20%	5%	5%
2	Curriculum Design: The courses are pertinent to both societal requirements and job opportunities	10%	40%	45%	0%	5%
3	Curriculum Design: The curriculum encourages candidates to engage in lifelong learning.	20%	45%	25%	5%	5%
4	Curriculum Design: The curriculum prepared me adequately for the job roles	15%	40%	35%	0%	10%
5	Curriculum Design: The curriculum has adequate courses which develops employability skills.	20%	40%	30%	0%	10%
6	Curriculum Design: The Curriculum has adequate scope for interdisciplinary electives	20%	50%	25%	5%	0%
7	Curriculum Design: The curriculum enhanced my capacity for collaboration and communication.	20%	45%	25%	10%	0%
8	Curriculum Design: The curriculum offers adequate balance between theoretical and practical aspects	25%	30%	30%	10%	5%
9	Curriculum Design: The curriculum has adequately	25%	35%	25%	15%	0%

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Parent/Guardian,

Greetings from JSS Science and Technology University!!!

Parent's feedback on design and review of syllabus. The pivotal relationship of Institution-parent-teacher promotes holistic development of the student.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

1. Name: Harshavee. M. Gowda
2. Mobile Number: 7975605758

Action Taken Report on Stake Holders' Feedback

1.4.1
24-25

B.E. in Electronics and Instrumentation Engineering

Suggestions

To include the following courses as professional electives

- Artificial Intelligence
- DSP Architecture
- Embedded Systems
- Cryptography and Network Security

To include following courses as open electives

- Transducers and Measuring Systems
- Introduction to Internet of Things
- Embedded Systems
- Digital Image Processing
- Internet of Things

Action taken

The above suggestions have been included in the curriculum for 2024 admission batch.

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

3.	The co-curricular learning opportunities are adequate to support curricular learning		✓			
4.	The course contents are relevant to the demands of the industry	✓				
5.	Adequacy of availability of interdisciplinary courses	✓				
6.	The electives offered are in relation to the technological advancements.	✓				
7.	Adequate number of courses are offered with practical component		✓			
8.	The courses encouraged extra learning / self learning		✓			
9.	The distribution of courses for each category is sufficient for the student's overall development			✓		
10.	The aims, objectives and outcomes are well defined for the entire program.		✓			
11.	The level of course was apt for the year of study		✓			
Course conduction and Learning Resources for courses						
12.	The duration of course is sufficient.		✓			
13.	Courses are evenly distributed over duration of the program		✓			
14.	The study materials are accessible, relevant and useful.		✓			
15.	Recommended books are adequate, appropriate and available		✓			
Course Assessment and Evaluation						
16.	The course credits are allocated based on the recent trends	✓				
17.	The assesment pattern was judicious and reasonable		✓			
18.	Evaluation system was fair and transparent		✓			
	Any other suggestions:

DEPARTMENT OF ENVIRONMENTAL ENGINEERING

Date: 05.08.2024

To,
Head of the Department,
Dept. of Environmental Engineering

Feedback Analysis Report (2023-24)

The feedback from the various stakeholders for the academic year 2023-24 has been collected and following are the key points from the feedback. Also, the summary of the responses from all the stakeholders on the questionnaire provided is enclosed.

- Course can be more relevant to present trend
- Student projects to be in interdisciplinary stream and in collaboration with other institutions.
- Some parts of the syllabus are quite out of date and needs to be updated. Discussion about most recent research would give the students an upper hand when they enter the work force and might instill great interest in research and development.
- Students need training in adequate software, advanced technology and relevant skills to prepare them for professional careers. This could include industry-standard software, cutting-edge technologies, and soft skills development to enhance their productivity, innovation and adaptability in the modern workforce.
- Introduction of value added courses or finishing schools of adequate duration will help the students bridge the gap between theoretical concepts learned in the classroom and the industry market requirements. More MoUs and associated activities will enhance visibility of the department as well as strengthen industry-institute interactions.

Feedback Analysis Report

(2023-24)

The feedback from the various stakeholders for the academic year 2023-24 has been collected and the following are the key points from the input. Also, the summary of the responses from all the stakeholders on the questionnaire provided is enclosed.

- Course can be more relevant to the present trend
- Student projects to be in interdisciplinary stream and collaboration with other colleges.
- Some parts of the syllabus are quite out of date and need to be updated. Discussion about the most recent research would give the students an upper hand when they enter the workforce and might instill great interest in research and development.
- Students need training in adequate software, advanced technology, and relevant skills to prepare them for professional careers. This could include industry-standard software, cutting-edge technologies, and soft skills development to enhance their productivity, innovation, and adaptability in the modern workforce.
- Introduction of value-added courses or finishing schools of adequate duration will help the students bridge the gap between theoretical concepts learned in the classroom and the industry/market requirements. More MoUs and associated activities will enhance the department's visibility and strengthen industry-institute interactions.

Nothing

Carry out students project work in interdisciplinary stream and also collaboration with other colleges

None

Some parts of the syllabus is quite out of date and needs to be updated. If professors discuss the most recent research that's being conducted with the students, it would really give them an upper hand when they enter the work force and might instill great interest in research and development in them.

Students need training in adequate software, advanced technology, and relevant skills to prepare them for professional careers. This includes industry-standard software, cutting-edge technologies, and soft skills development to enhance their productivity, innovation, and adaptability in the modern workforce.

Introduction of Value added course or finishing schools of adequate duration will help the students bridge the gap between theoretical concepts learned in the classroom and the industry/market requirements. More MoUs and associated activities will enhance visibility of the department as well as strengthen industry-institute interactions. with industry

Feedback Analysis Report (2024-2025)

The feedback from the stakeholders for the academic year (2024-2025) has been collected and analysed. The following observations have been made from the feedback.

1. The Alumni has suggested to introduce Additive Manufacturing in the course.
2. The Employer has suggested to introduce Research Methodology and IPR subject.
3. The Teacher has request to introduce Occupational Health and safety engineering.

The report is submitted for further needful.

1. 2.

DEPARTMENT OF MECHANICAL ENGINEERING

Stakeholder's Feedback Analysis Report on Curriculum Design for the academic year 2024-2025

Summary of the Feedback and its Analysis

This report synthesizes feedback on the course design and analyzed to provide a comprehensive overview of strengths and area for improvement. The University strives to uphold the principles of technical education by imparting quality value based curriculum that unfolds the latest development in the field of Mechanical Engineering. The stakeholder's feedback plays an important role in designing a need based competent curriculum that caters to the growth of the institution. The University has designed questionnaires on curriculum for drawing the insights of the stakeholders' such as parents, Students, Alumni, Employers and Employee.

Students feedback on curriculum design and delivery

	Content	5	4	3	2	1
1.	The Students are given adequate opportunities to participate in the curriculum development	17	9	3	0	1
2.	Course contents are relevant to real life situations and my learning needs	15	11	2	1	1
3	The co-curricular learning opportunities are adequate to industry	14	12	2	1	1
4.	The course contents are relevant to the demands of the industry	17	3	4	2	4
5.	Adequacy of availability of interdisciplinary courses	19	3	5	2	1
6.	The electives offered are in relation to the technological advancements.	13	5	7	2	3
7.	Adequate number of courses are offered with practical component	16	4	3	3	4
8.	The courses encouraged extra learning / self-learning	14	6	4	3	3
9.	The distribution of courses for each category is sufficient for the student's overall development	15	5	3	4	3
10.	The aims, objectives and outcomes are well defined for the entire program.	14	9	5	1	1
11.	The level of course was apt for the year of study	14	5	6	4	1
Course conduction and Learning Resources, Laboratories						
12.	The duration of course is sufficient.	16	4	5	3	2

Employer feedback on curriculum design and delivery

Sl. No.	Content	5	4	3	2	1
	Curriculum Design					
1	The curriculum has relevant contents to assist the students in working productively in multidisciplinary teams as team leaders or as individuals while fostering a dedication to professional ethics and duties.	5	3	4	1	2
2	The curriculum has adequate courses to assist the student tomanage projects in multidisciplinary environments at entry level in industry	5	2	3	4	1
3	The Curriculum assists the students to develop required technical skills at entry level in industry	6	4	1	2	2
4	The Curriculum has adequate scope for interdisciplinary electives	7	3	2	1	2
5	The curriculum offers adequate balance between theoretical and practical aspects	7	2	2	3	1
6	The Curriculum emphasizes lifelong learning and higher learning through required on-the-job training	2	6	4	2	1
7	The Curriculum helps the student in gaining the skills required to communicate effectively in a professional setting for complicated engineering operations by means ofreport writing, documentation and presentations	5	4	3	1	2
8	The Curriculum have adequate scope for Adaptability to new technology/tool and ensures students zeal to be a constant learner	5	4	2	1	3
9	The Curriculum instills capability to analyze, synthesize, design, develop and test systems/processes in a real time environment	6	2	2	2	3
10	Assessment and Evaluation pattern is adequate and judicious	4	6	2	2	1
11	Learning resources prescribed in the curriculum is relevant and uptodate to the needs of the industry	3	5	3	2	2

Students feedback on curriculum design and delivery

Dear Student,
Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary as students are the major stakeholders of the university.
The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our University.

We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Any other suggestions					

- **Curriculum Relevance** – Applications should be elaborated in detail with respect to themes, and courses need timely updates to match the current trends, especially considering the mindset and expectations of present-day students.
- **Flexibility & Student-Centric Approach** – The department should encourage a more open and stress-free learning environment, similar to other branches, so students can focus on genuine learning rather than working under pressure.
- **Modernization of Courses** – Integration of AI-related courses and other emerging technologies is necessary to keep the curriculum aligned with industry demands.
- **Semester Duration** – The overall semester duration is too short, which reduced the depth of learning and increased stress.
- **General Satisfaction** – Apart from these, students reported no major issues, with many responses indicating "Good."

Course Assessment and Evaluation : The assessment pattern was judicious and reasonable	12	9	1	0	0
Course Assessment and Evaluation : Evaluation system was fair and transparent	15	6	1	0	0
Any other suggestions					

- **Integration of Artificial Intelligence** – Greater emphasis should be placed on AI within the syllabus to strengthen students' exposure to cutting-edge technologies.
- **Industry Collaboration** – Involvement of industry experts is recommended, both to share knowledge/resources and to offer real-world perspectives.
- **Project Evaluation** – Industry professionals should be included in project panels from the very beginning to ensure timely and guidance.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

- **Curriculum Enrichment** – Updates to the syllabus should be more industry-driven to better align academic content with current professional practices.
- **General Remarks** – Apart from these suggestions, many students responded with "Nil" or "No," indicating no additional major concerns.

Any other Suggestions

- **Practical VLSI Design Exposure** – Students should be trained in **Cadence tools, MOS circuits, and design methodologies** rather than focusing heavily on BJTs. By the end of 4th year, they should be capable of designing circuits like MOS differential amplifiers (Opamps/Comparators) from scratch for given specifications. Exposure to **layout skills and full design cycle (including tape-out with industry tie-ups)** is highly recommended.
- **Industry-Relevant Skills** – Emphasis should be placed on **Gen AI, MCP Server, and other emerging technologies** to make students more aligned with the current software and hardware industry requirements.
- **Internships & Industry Engagement** – More **credits should be allocated to internships**, with flexibility for students to **choose between a final-year project or a company internship** in the final year.
- **Collaboration with Industry** – Stronger collaboration with organizations is needed for providing **hands-on design projects, real-world resources, and exposure to industrial practices**.
- **General Feedback** – Overall, feedback indicates that aligning the curriculum more closely with **industry expectations and soft skills** will improve employability of EC students.

Alumni feedback on curriculum design and delivery

Dear Alumni
Greetings from JSS Science and Technology University!!!

Alumni feedback on design and review of syllabus is one of the key for the academic development of university. The alumni feedback helps in improving the quality of scheme and syllabus of University.

We are thankful to you, for providing your valuable time to fill this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our

Any other suggestions

There is a necessity to bridge the gap between the academic curriculum and the industry requirement. I'm currently working in an embedded systems domain role, I see that there is a small gap between the curriculum syllabus and the industry requirements. Acknowledging that the basics taughts in the curriculum like DSD, Analog electronics, Microcontroller 8051, Embeddes system courses enables a student in taking up the real world use cases. But this is not sufficient, if the curriculum could be designed in such a way that the concepts and the practice go hand in hand and encourage the students to implement the same in the initial semesters itself will help in creating a better skillsets. Which will also introduce them to the world of electeonics even before the summner internships starts to pitch-in. Department should encourage students to take up the summer internships because no matter what the curriculum cannot introduce them to the corporate environment where not only technical learning will happen also some non-technical aspects that gives an edge to a student over others. The final year projects could be collaborativly done with the industries. The last point is not very feasible since students land up at different domains and could be very difficult to design the framework. But if we can find a way to collaborate with big techs and students can be allowed to make use of the industry standard platforms, softwares and hardware to implement their ideas... it'll be transformational.

Course conduction and Learning Resources for courses: The study materials are accessible, relevant and useful.	5	13	6	2	1
Course conduction and Learning Resources for courses: Recommended books are adequate, appropriate and available.	6	10	8	2	1

Any other Suggestions

- **Stronger Industry Alignment** – Alumni feel the curriculum is more suitable for higher studies than for industry. There is a clear need to **bridge the gap between academics and industry requirements** through internships, industry collaborations, and exposure to real-world roles (hardware, firmware, embedded systems, etc.).
- **Curriculum Modernization** – The syllabus should be **updated regularly (every semester/year)** to keep pace with emerging technologies like **AI/ML, Data Science, Battery Management Systems, Embedded Systems**, etc. Outdated subjects should be phased out and replaced with industry-relevant courses.
- **Practical & Hands-On Learning** – Alumni emphasize the importance of **hands-on training, workshops, mini-projects, and use of modern lab equipment**. More practical exposure from the **early semesters** would help students build strong employable skills.
- **Assignments & Skill Development** – Instead of focusing mainly on theoretical or repetitive assignments, tasks should be designed to **enhance experimental skills, real-world problem solving, and employ readiness**. Inclusion of courses like **Personal Finance** in the first year was also suggested for holistic development.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

- **Industry Collaboration in Projects & Internships – Final year projects and internships should be industry-linked**, with opportunities to use **industry-standard tools, platforms, and hardware**. Industry mentorship and collaborative frameworks with companies can transform student learning and employability.

Parent feedback on curriculum design and delivery

Dear Parent/Guardian,

Greetings from JSS Science and Technology University!!!

Parent's feedback on design and review of syllabus.

The pivotal relationship of Institution-parent teacher promotes holistic development of the student. We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution.

We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Teacher feedback on curriculum design and delivery

Dear Professors,

Greetings from JSS Science and Technology University!!!

Teachers feedback on design and review of syllabus play a major role in development of the program curriculum. Your feedback helps in improving the framework of scheme and syllabus of University.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution.

We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Course Assessment and Evaluation : Evaluation system was fair and transparent	7	8	0	1	0

Any other suggestions

- **Clarity in Academic Planning** – Parents suggest that the **academic calendar of events should be clearly communicated beforehand** and strictly followed.
- **Industry-Relevant Scheduling** – The calendar and activities should be **better aligned with industry requirements** to benefit students' preparation and exposure.
- **General Satisfaction** – Apart from the above, most parents had **no major suggestions**, indicating overall satisfaction.

09.01.2026 17:51

To,
Head of the Department
Department of Electronics and Communication Engineering
SJCE, JSS Science and Technology University

The Feedback from Stake holders has been collected and analyzed. The following are the observations made by the feedback

1. Student Feedback

- **Curriculum Relevance**: Need for timely updates and stronger application-oriented content linked to contemporary technologies and students' interests.
- **Flexibility & Stress Reduction**: Request for a more student-friendly learning environment with less pressure and more freedom to choose relevant activities.
- **Integration of Emerging Technologies**: Strong demand for AI-related courses and other modern topics.
- **Semester Duration & Workload**: Semester felt too short; students reported heavy workloads and limited depth.
- **General Remarks**: Majority of students reported no additional issues (responses: "Nothing/Nil/Good").

2. Alumni Feedback

- **Stronger Industry Alignment**: Curriculum currently better suited for higher studies than for direct industry roles; need for closer alignment with industry expectations.
- **Curriculum Modernization**: Regular syllabus updates (yearly/semester-wise) to include AI/ML, Embedded Systems, Battery Management, etc.
- **Practical Exposure**: Increase hands-on workshops, mini-projects, and modern lab equipment; practical training from early semesters.
- **Assignments & Employability**: Assignments should focus on experimental skills and real-world problem solving; suggest adding Personal Finance in Year 1.
- **Industry-linked Projects & Internships**: Encourage collaborative projects and internships with industry partners.

3. Employers Feedback

- **VLSI & Circuit Design Skills**: Train students in Cadence tools, MOS circuit design, layout — ability to design basic amplifiers/op-amps expected by employers.
- **Inclusion of Relevant Tools/Tech**: Add Gen AI, MCP Server, and other current technologies to the curriculum.
- **Internships & Credits**: More credits for internships; allow choice between final-year project or company internship.
- **Industry Collaboration**: Tie-ups for tape-out and full design-cycle exposure; involve industry in project panels.
- **Practical Industry Readiness**: Greater emphasis on skills that make students employable from day one.

Signature Not Verified
SOKKALINGAM ARUMUGAM DHANARAJ
CN=SOKKALINGAM ARUMUGAM DHANARAJ, SERIALNUMBER=09c71c7430...50427fd3f0bf7df6ea45d76c824ff43c67a4080...df41420957ae, S=Karnataka, PostalCode=570006, Phone=6c62dc6a97e4c1...62b98771dd89ff89c15c36e9252e3ca1b465469e388d65809, O=JSS SCIENCE AND TECHNOLOGY UNIVERSITY, C=IN
09.01.2026 17:51

4. Parents Feedback

- **Clarity in Academic Planning**: Need for advance communication of the academic calendar and adherence to it.
- **Industry-Aligned Scheduling**: Calendar needs to be attuned to industry timelines to help students secure internships and training.
- **General Satisfaction**: Other than planning concerns, parents reported no major issues.

5. Faculty Feedback

- **Regular, Structured Curriculum Review**: Faculty recommend an institutionalized, periodic review process (e.g., annual/biannual) with inputs from industry, alumni, and faculty to keep syllabi current and flexible.
- **Teaching & Assessment Reform**: Shift toward project-based learning, continuous assessment, and fewer rote assignments. Increase credits for experiential components (labs, internships, mini-projects).
- **Laboratory & Resource Upgrades**: Investment in modern lab equipment, software licenses (Cadence, FPGA toolchains, cloud compute), and budget for tape-out or industry-grade prototyping.
- **Faculty Development & Research Support**: Provide regular FDPs (faculty development programs) on AI/VLSI/embedded tools, support for conferences, research grants, and incentives for consultancy/industry projects.
- **Academic Governance & Student Support**: Clear academic calendar, better coordination to reduce student stress, enhanced mentoring and mental-health support, and flexibility (e.g., project vs internship option in final year).

Feedback Analysis Report (2024-2025)

The feedback from the stakeholders for the academic year 2023-2024 has been collected and analyzed. The following observations have been made from the feedback.

1. The Alumni have suggested to give importance to subjects like VLSI and Embedded systems.
2. The Professors have suggested to introduce AI & ML topics in few core subjects.
3. The students have suggested to include more skill development courses.
4. Parents has suggested to introduce programming languages.
5. Suggestion was received in Department Advisory Board meeting to add cyber security topics in Power Systems course.

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

1. Name: Yogitha. B
2. Mobile Number: 91+8939367
3. E-mail Id: yogithabelli@gmail.com
4. USN: 01JSTCH PCH03D
5. Semester: 3rd Semester
6. Branch: M.Sc Chemistry

Rate the following attributes w.r.t. to the design and review of syllabus using 5-point Likert scale

Excellent (5) Very Good (4) Good (3) Satisfactory (2) Needs improvement (1)

Students feedback on curriculum design and delivery

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Employer,

Greetings from JSS Science and Technology University!!!

Employer feedback on design and review of syllabus is important for an educational institution to understand the industry requirement and reframe the curriculum in accordance with the recent trends.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Parent/Guardian,

Greetings from JSS Science and Technology University!!!

Parent's feedback on design and review of syllabus. The pivotal relationship of Institution-parent-teacher promotes holistic development of the student.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

DEPARTMENT OF CHEMISTRY

To,

Head of the Department
Department of Chemistry
JSS STU, Mysuru.

The feedback from the stakeholders for the academic year 2024-25 has been collected and analyzed. The following observations have been made from the feedback.

The student, employers, alumni, parents and teachers are satisfied with the present curriculum and did not suggest any changes

I year Students

Student Feedback Report

Total number of student respondents: 47

Student feedback was collected in person, serving as a crucial element in shaping course design and evaluation. It provides valuable insights that guide decision-making, enhance instructional strategies, increase student engagement, and contribute to a more inclusive and collaborative learning environment. By actively gathering and addressing student feedback, educators can develop adaptive and student-cantered educational experiences that support academic and professional success.

Summary of Student Feedback on Curriculum Design and Delivery

Student feedback was collected personally to assess various aspects of curriculum design and instructional effectiveness. The analysis of responses provided valuable insights into students' perceptions of curriculum relevance, learning opportunities, course adequacy, and instructional resources. The key findings from the collected feedback are summarized below, along with the actions taken in response to the feedback.

Key Findings from Feedback Analysis

1. Student Participation in Curriculum Development

21.28% of students rated this as Excellent, and 42.55% as Very Good.

36.17% rated it as Good or below, suggesting scope for further improvement in student engagement in curriculum planning.

Action Taken: Opportunities for student representation in curriculum development committees have been increased, and student suggestions are being actively considered in periodic syllabus revisions.

2. Relevance of Course Content to Real-Life Situations

63.83% rated this aspect as Excellent and 31.91% as Very Good.

No student rated it as Needs Improvement, showing strong overall satisfaction.

Action Taken: Continuous industry input is incorporated into the syllabus to ensure real-world applicability of course content.

3. Co-Curricular Learning Opportunities & Industry Alignment

53.19% found them Excellent, and 36.17% rated them Very Good.

Only 2.13% rated it as Satisfactory, indicating strong approval with a minor scope for improvement.

Action Taken: More industry-driven workshops, guest lectures, and industry-sponsored hackathons have been introduced to strengthen industry exposure.

4. Relevance of Course Content to Industry Needs

53.19% rated this as Excellent and 36.17% as Very Good.

No students rated it as Needs Improvement, affirming strong industry alignment.

Action Taken: Regular curriculum review meetings with industry experts have been initiated to keep the syllabus aligned with evolving industry requirements.

5. Availability of Interdisciplinary Courses

46.81% rated this as Excellent and 31.91% as Very Good.

8.51% found it only Satisfactory, suggesting expansion in choices.

Action Taken: Additional interdisciplinary electives in emerging fields such as Data Analytics, SAP courses, and Sustainability Studies have been introduced.

6. Electives and Technological Advancements

Equal share of Excellent and Very Good ratings (42.55% each).

A small proportion (2.13%) suggested improvement.

09.01.2026 17:51

S.J.C.E., Mysore

JSS SCIENCE AND TECHNOLOGY UNIVERSITY MYSURU

Action Taken: More elective choices related to Industry 4.0 technologies have been included in the curriculum.

7. Practical Component in Courses

31.91% rated it Excellent and 38.30% as Very Good.

12.77% felt it needed improvement.

Action Taken: Increased lab-based learning, hands-on workshops, and project-based coursework have been integrated into the curriculum.

8. Encouragement of Self-Learning

29.79% rated it as Excellent and 40.43% as Very Good.

A small proportion (2.13%) felt it needed improvement.

Action Taken: More open-ended problem-solving exercises and research-based coursework have been included to promote independent learning.

9. Distribution of Courses for Holistic Development

23.40% rated it Excellent and 34.04% as Very Good.

23.40% rated it as Good and 17.02% as Satisfactory.

Action Taken: More balance between technical, managerial, and soft skills courses has been ensured for holistic student development.

10. Program Learning Objectives and Outcomes

25.53% rated them Excellent and 31.91% as Very Good.

6.38% felt they needed improvement.

Action Taken: Course learning outcomes are being periodically reviewed and mapped to global accreditation standards to ensure clarity and relevance.

11. Aptness of Course Level for Year of Study

23.40% found it Excellent and 44.68% as Very Good.

4.26% felt it needed modification.

Action Taken: A detailed benchmarking exercise has been conducted to align course difficulty levels with best practices.

12. Duration of Courses

36.17% rated it Excellent and 42.55% as Very Good.

Only 2.13% felt it needed improvement.

Action Taken: Course durations have been revised to ensure adequate time for complex subjects and hands-on sessions.

13. Even Distribution of Courses Over the Program

38.30% rated it Excellent and 34.04% as Very Good.

10.64% rated it as Satisfactory.

Action Taken: Course load distribution across semesters has been optimized to prevent academic overload in specific terms.

14. Study Materials – Accessibility and Relevance

23.40% rated study materials as Excellent and 34.04% as Very Good.

8.51% suggested better availability.

Action Taken: Digital repositories and open-access learning materials have been expanded to improve accessibility.

15. Adequacy and Availability of Recommended Books

29.79% rated them Excellent and 29.79% as Very Good.

8.51% suggested improvements.

Action Taken: More recent editions and additional references have been incorporated into the library and digital databases.

II year Students

Student Feedback Report

Total number of student respondents: 58

Student feedback was collected in person, serving as a crucial element in shaping course design and evaluation. It provides valuable insights that guide decision-making, enhance instructional strategies, increase student engagement, and contribute to a more inclusive and collaborative learning environment. By actively gathering and addressing student feedback, educators can develop adaptive and student-cantered educational experiences that support academic and professional success.

Summary of Student Feedback on Curriculum Design and Delivery – II Year Students

Student feedback was collected personally to evaluate various aspects of curriculum design and delivery. This analysis highlights how second-year students perceive curriculum relevance, industry alignment, course adequacy, and instructional resources. Below are the key findings and actions taken.

Key Findings from Feedback Analysis

1. Student Participation in Curriculum Development

- 20.7% rated it as *Excellent*, 43.1% as *Very Good*, and 24.1% as *Good*.
- 15.5% rated it *Satisfactory* or *Needs Improvement*, indicating potential for increased student involvement.
  Action Taken: Expanded student representation in curriculum committees and actively considered feedback during syllabus revisions.

2. Relevance of Course Content to Real-Life Situations

- 63.8% rated it *Excellent* and 32.8% as *Very Good*.
- No ratings for *Needs Improvement* or *Satisfactory*.
  Action Taken: Strengthened industry consultation to keep content relevant and application-focused.

3. Co-Curricular Learning Opportunities & Industry Alignment

- 53.4% rated as *Excellent* and 36.2% as *Very Good*.
- 1.7% rated *Satisfactory*.
  Action Taken: Introduced more industry-focused events, guest talks, and experiential learning.

4. Relevance of Course Content to Industry Needs

- 53.4% rated *Excellent*, 36.2% *Very Good*, 10.3% *Good*.
- No ratings in the lower categories.
  Action Taken: Regular review meetings with industry professionals to align curriculum.

5. Availability of Interdisciplinary Courses

- 46.6% rated *Excellent*, 32.8% *Very Good*, 12.1% *Good*, and 8.6% *Satisfactory*.
  Action Taken: Added electives in cross-disciplinary domains like Data Analytics, SAP, and Sustainability Studies.

6. Electives and Technological Advancements

- Equal *Excellent* and *Very Good* ratings at 40.5% each.
- 8.6% rated *Satisfactory* and 2% as *Needs Improvement*.
  Action Taken: Expanded offerings in [illegible] and emerging technologies.

7. Practical Component in Courses

DEPT. OF CSE S.J.C.E., Mysore

JSS SCIENCE AND TECHNOLOGY UNIVERSITY MYSURU

- 31% rated *Excellent*, 39.7% *Very Good*, 17.2% *Good*, and 12.1% *Satisfactory*.
  Action Taken: Enhanced lab sessions, project-based coursework, and workshops.

8. Encouragement of Self-Learning

- 29.3% *Excellent*, 39.7% *Very Good*, 19% *Good*, 8.6% *Satisfactory*, and 2% *Needs Improvement*.
  Action Taken: Integrated open-ended assignments and research-based learning.

9. Distribution of Courses for Holistic Development

- 22.4% *Excellent*, 34.5% *Very Good*, 19% *Good*, 13.8% *Satisfactory*, and 5.2% *Needs Improvement*.
  Action Taken: Balanced curriculum mix between technical, managerial, and soft skills.

10. Program Learning Objectives and Outcomes

- 25.9% *Excellent*, 31% *Very Good*, 19% *Good*, 13.8% *Satisfactory*, and 5.2% *Needs Improvement*.
  Action Taken: Periodic review of program outcomes against global accreditation benchmarks.

11. Aptness of Course Level for Year of Study

- 22.4% *Excellent*, 44.8% *Very Good*, 13.8% *Good*, 8.6% *Satisfactory*, and 3.4% *Needs Improvement*.
  Action Taken: Adjusted course difficulty to align with national and international standards.

12. Duration of Courses

- 36.2% *Excellent*, 43.1% *Very Good*, 10.3% *Good*, 8.6% *Satisfactory*, and 2% *Needs Improvement*.
  Action Taken: Optimized durations for complex subjects.

13. Even Distribution of Courses Over the Program

- 38% *Excellent*, 34.5% *Very Good*, 13.8% *Good*, 10.3% *Satisfactory*.
  Action Taken: Balanced course load across semesters.

14. Study Materials – Accessibility and Relevance

- 22.4% *Excellent*, 34.5% *Very Good*, 13.8% *Good*, 13.8% *Satisfactory*, and 8.6% *Needs Improvement*.
  Action Taken: Expanded online resources and library access.

15. Adequacy and Availability of Recommended Books

- 29.3% *Excellent*, 29.3% *Very Good*, 12.1% *Good*, 8% *Satisfactory*, and 8.6% *Needs Improvement*.

Summary of Student Feedback on Curriculum Design and Delivery – III Year Students

Student feedback was collected to evaluate curriculum design, content relevance, industry alignment, course adequacy, and instructional resources for the third-year students. The analysis highlights overall positive trends, with most ratings skewed toward *Good*, *Very Good*, and *Excellent*.

Key Findings from Feedback Analysis

1. Student Participation in Curriculum Development

- 20.37% rated it *Excellent*, 42.59% *Very Good*, and 24.07% *Good*.
- 12.96% rated it *Satisfactory* or *Needs Improvement*.
  Action Taken: Strengthened student representation in curriculum committees and included student feedback in periodic syllabus revisions.

2. Relevance of Course Content to Real-Life Situations

- 62.96% *Excellent*, 33.33% *Very Good*, only 3.70% *Good*.
- No ratings in lower categories.
  Action Taken: Continued integration of real-world case studies and industry projects.

3. Co-Curricular Learning Opportunities & Industry Alignment

- 51.85% *Excellent* and 37.04% *Very Good*.
- Only 1.85% *Satisfactory*.
  Action Taken: Increased industry interactions through internships, expert lectures, and technical competitions.

4. Relevance of Course Content to Industry Needs

- 51.85% *Excellent* and 37.04% *Very Good*.
- No *Needs Improvement* ratings.
  Action Taken: Enhanced industry collaborations to keep course content updated with market needs.

5. Availability of Interdisciplinary Courses

- 44.44% *Excellent*, 33.33% *Very Good*, and 12.96% *Good*.
- 9.26% rated it *Satisfactory*.
  Action Taken: Introduced more electives in emerging interdisciplinary areas.

6. Electives and Technological Advancements

- Equal *Excellent* and *Very Good* ratings at 38.89% each.
- 9.26% *Satisfactory* and 1.85% *Needs Improvement*.
  Action Taken: Introduced more elective courses on AI, IoT, and sustainable technologies.

7. Practical Component in Courses

- 31.48% *Excellent*, 38.89% *Very Good*, and 24.07% *Good*.

- 12.96% rated it *Satisfactory*.
  Action Taken: Increased lab hours, hands-on workshops, and project-based learning.

8. Encouragement of Self-Learning

- 29.63% *Excellent*, 38.89% *Very Good*, 18.52% *Good*.
- 11.11% in lower categories.
  Action Taken: Added self-paced learning modules and research mini-projects.

9. Distribution of Courses for Holistic Development

- 22.22% *Excellent*, 35.19% *Very Good*, 18.52% *Good*.
- 24.08% rated it as *Satisfactory* or *Needs Improvement*.
  Action Taken: Balanced curriculum between core, elective, and soft skill courses.

10. Program Learning Objectives and Outcomes

- 25.93% *Excellent*, 31.48% *Very Good*, 18.52% *Good*.
- 24.08% in lower ratings.
  Action Taken: Reviewed and refined learning objectives to align with global accreditation standards.

11. Aptness of Course Level for Year of Study

- 24.07% *Excellent*, 44.44% *Very Good*, 18.52% *Good*.
- 14.81% in lower categories.
  Action Taken: Adjusted difficulty levels of courses based on feedback and benchmarking.

12. Duration of Courses

- 35.19% *Excellent*, 42.59% *Very Good*, 11.11% *Good*.
- Only 1.85% *Needs Improvement*.
  Action Taken: Optimized course duration for complex topics.

13. Even Distribution of Courses Over the Program

- 37.04% *Excellent*, 35.19% *Very Good*, 18.52% *Good*.
- 11.11% rated it *Satisfactory*.
  Action Taken: Evenly distributed course load across semesters.

14. Study Materials – Accessibility and Relevance

- 22.22% *Excellent*, 35.19% *Very Good*, 16.67% *Good*.
- 25.93% in lower categories.
  Action Taken: Expanded e-resources and provided open-access study materials.

15. Adequacy and Availability of Recommended Books

- 29.63% *Excellent*, 29.63% *Very Good*, 14.[illegible]% *Good*.
- 25.93% rated it *Satisfactory* or *Needs Improvement*.
  Action Taken: Updated book lists [illegible] ensured library availability.

Summary of Student Feedback on Curriculum Design and Delivery – IV Year Students

Student feedback was collected to assess curriculum design, relevance, industry orientation, and resource adequacy for the final-year students. The responses indicate strong satisfaction across most parameters, with majority ratings in *Very Good* and *Excellent*.

Key Findings from Feedback Analysis

1. Student Participation in Curriculum Development

- 21.21% *Excellent*, 42.42% *Very Good*, 24.24% *Good*.
- 12.12% rated it *Satisfactory* or *Needs Improvement*.
  Action Taken: Continued inclusion of student representatives in curriculum committees and active use of their feedback in revisions.

2. Relevance of Course Content to Real-Life Situations

- 63.64% *Excellent*, 33.33% *Very Good*, 3.03% *Good*.
  Action Taken: Integration of more real-life case studies and applied learning modules.

3. Co-Curricular Learning Opportunities & Industry Alignment

- 51.52% *Excellent*, 36.36% *Very Good*, and 9.09% in *Good* or below.
  Action Taken: Strengthened linkages with industry for seminars, hackathons, and competitions.

4. Relevance of Course Content to Industry Needs

- 51.52% *Excellent*, 36.36% *Very Good*, and 12.12% *Good*.
  Action Taken: Continuous review with industry experts to maintain syllabus relevance.

5. Availability of Interdisciplinary Courses

- 45.45% *Excellent*, 33.33% *Very Good*, 12.12% *Good*.
- 9.09% *Satisfactory*.
  Action Taken: Introduced new interdisciplinary electives in emerging domains.

6. Electives and Technological Advancements

- Equal *Excellent* and *Very Good* at 39.39% each.
- 9.09% *Satisfactory* and 3.03% *Needs Improvement*.
  Action Taken: More electives on AI, robotics, and sustainable technologies.

7. Practical Component in Courses

- 33.33% *Excellent*, 39.39% *Very Good*, 15.15% *Good*.
- 12.12% in *Satisfactory*.
  Action Taken: Enhanced lab activities, workshops, and real-time project integration.

8. Encouragement of Self-Learning

Key Findings from Alumni Feedback Analysis:

1. Opportunities for Alumni in Curriculum Development

- 45.45% rated this as *Excellent*, 18.18% as *Very Good*, and 36.36% as *Good* or below, indicating scope for further alumni involvement.
  Action Taken: More structured alumni involvement through advisory panels and periodic feedback integration in curriculum revision.

2. Alignment of Courses with Societal and Job Market Needs

- 50.00% rated this as *Excellent*, 13.64% as *Very Good*, and 36.36% as *Good* or below.
  Action Taken: Continuous updates to course content based on industry feedback and emerging societal needs.

3. Encouragement for Lifelong Learning

- 40.91% rated this as *Excellent*, 22.73% as *Very Good*, while 36.36% felt there is room for improvement.
  Action Taken: Integration of MOOCs, certificate courses, and self-learning modules to foster continuous learning.

4. Preparation for Job Roles

- 50.00% rated this as *Excellent*, 18.18% as *Very Good*, and 31.82% felt there is scope for enhancement.
  Action Taken: Inclusion of real-world case studies, industry projects, and internship opportunities to better prepare students for the workforce.

5. Development of Employability Skills

- 45.45% rated this as *Excellent*, 27.27% as *Very Good*.
  Action Taken: Strengthening of soft skills training, industry workshops, and employability skill development programs.

6. Scope for Interdisciplinary Electives

- 50.00% rated this as *Excellent*, while 31.82% rated it as *Good* or below, indicating gaps in elective variety.
  Action Taken: Introduction of more elective options related to Industry 4.0, sustainability, and entrepreneurship.

7. Enhancement of Collaboration and Communication Skills

- 59.09% rated this as *Excellent*, indicating a strong curriculum component in collaboration and communication.
  Action Taken: Expansion of collaborative projects, industry-led communication workshops, and team-based learning methods.

8. Balance Between Theory and Practical Learning

09.01.2026 17:51

- 59.09% rated this as *Excellent*, 9.09% as *Very Good*.
  Action Taken: Integration of more hands-on learning such as laboratory sessions, capstone projects, and industry visits.

9. Coverage of Prerequisites and Fundamental Skills

- 50.00% rated this as *Excellent*.
  Action Taken: Additional preparatory courses and skill-bridging modules have been introduced for first-year students.

10. Alumni Involvement in Institute Building

- 68.18% rated alumni engagement as *Excellent*, the highest-rated parameter.
  Action Taken: Increased alumni networking events, mentorship programs, and industry-academia collaborations.

11. Adaptability of the Curriculum to Industry Requirements

- 50.00% rated this as *Excellent*, 13.64% as *Very Good*.
  Action Taken: Bi-annual curriculum reviews with industry partners to meet evolving industry standards.

12. Adequacy of Academic Resources

- 40.91% rated resources as *Excellent*, while 22.73% suggested improvements.
  Action Taken: Expansion of library resources, digital learning platforms, and research database access.

13. Fairness and Transparency of Assessment and Evaluation

- 45.45% rated the evaluation system as *Excellent*, 18.18% as *Very Good*.
  Action Taken: Continued adherence to transparent, fair evaluation practices in line with global standards.

Parents feedback on curriculum design and delivery

Parent feedback is instrumental in assessing the effectiveness of curriculum design and its impact on students' academic and personal development. The collected feedback provides valuable insights into various aspects such as employability, extracurricular balance, interdisciplinary learning, mentoring, and evaluation transparency. The key findings from the feedback analysis are summarized below, along with the actions taken in response to the feedback.

Total 33 parents responded to the survey

Question	Needs Improvement	Satisfactory	Good	Very Good	Excellent
The parents are given adequate scope to participate in	4.76%	4.76%	28.57%	14.29%	47.62%

Key Findings and Actions Taken – Parents Feedback (33 Respondents)

1. Parent Participation in Curriculum Development

- 48.48% of parents rated this as *Excellent*, 15.15% as *Very Good*, and 9.09% rated it as *Needs Improvement* or *Satisfactory*, indicating scope for increased parental engagement.
  Action Taken: Parent-teacher meetings are conducted each semester, and feedback on curriculum development is actively collected.

2. Curriculum Relevance to Employability and Higher Education

- 39.39% rated this as *Excellent*, 24.24% as *Very Good*, and 21.21% rated it as *Good* or below.
  Action Taken:
- Additional industry-relevant courses and career-oriented electives introduced.
- Strengthened collaborations with universities and industry experts for real-world exposure.

3. Balance Between Curricular and Extracurricular Activities

- 51.52% rated it as *Excellent*, 9.09% as *Needs Improvement*.
  Action Taken:
- More co-curricular activities, leadership programs, and skill-building workshops planned.
- Mandatory extracurricular engagement integrated into the academic framework.

4. Encouragement for Lifelong Learning

- 48.48% rated this as *Excellent*, 24.24% as *Satisfactory*.
  Action Taken:
- Encouragement for students to pursue online certifications in emerging fields.
- Self-paced learning modules and research-based projects integrated into curriculum.

5. Availability of Interdisciplinary Electives

- 51.52% rated this as *Excellent*, 21.21% rated it as *Good* or below.
  Action Taken:
- New interdisciplinary courses in sustainability and digital transformation introduced.
- More elective choices offered with flexibility for cross-disciplinary exploration.

6. Co-Curricular Participation Encouragement

- 48.48% rated this as *Excellent*, 9.09% as *Satisfactory*.
  Action Taken:
- Increased inter-college competitions, leadership summits, and entrepreneurship boot camps.
- Opportunities for participation in [illegible] curricular events expanded.

7. Inclusion of Technological Advancements in Curriculum

S.J.C.E., Mysore

JSS SCIENCE AND TECHNOLOGY UNIVERSITY MYSURU

- 42.42% rated it as *Excellent*, 27.27% as *Very Good*, while 9.09% felt improvement was needed.
  Action Taken: Industry-led training sessions and technology-based projects promoted.

8. Balance Between Theoretical and Practical Learning

- 48.48% rated this as *Excellent*, 15.15% as *Satisfactory*.
  Action Taken:
- More lab-based learning, internships, and real-world projects included.
- Case-study-based teaching integrated into each semester.

9. Academic Progress of Students

- 57.58% rated this as *Excellent*, 9.09% as *Needs Improvement*.
  Action Taken:
- Continuous progress monitoring system implemented.
- Regular parent-teacher interactions scheduled.

10. Communication and Collaboration Skill Development

- 51.52% rated this as *Excellent*, 9.09% felt improvement was needed.
  Action Taken: More debates, group discussions, and teamwork-based projects included.

11. Entrepreneurship Skill Development

- 60.61% rated this as *Excellent*, with no ratings for *Needs Improvement*.
  Action Taken:
- Strengthened entrepreneurship cells and startup incubation programs.
- Students encouraged to join business plan competitions and mentor-led startup workshops.

12. Holistic Development of Students

- 51.52% rated this as *Excellent*, 9.09% as *Needs Improvement*.
  Action Taken: Greater emphasis on sports, cultural activities, and leadership training.

13. Adequacy of Student Mentoring

- 72.73% rated this as *Excellent*, the highest-rated parameter.
  Action Taken:
- Expanded faculty mentorship programs.
- Structured mentor-mentee system implemented for personalized guidance.

14. Availability of Academic Resources

- 57.58% rated this as *Excellent*, 15.15% suggested improvement.
  Action Taken:
- Library expanded with more books, digital resources, and research papers.
- Open-access learning platforms made available to students.

15. Assessment and Evaluation Pattern – Fair and Transparency

09.01.2026 17:51

Faculty Feedback on Curriculum Design and Delivery – (8 Respondents)

1. Balance Between Theory and Application in Courses

- Key Findings: 50.00% rated this as *Excellent*, 12.50% as *Very Good*, 25.00% as *Good*, and 12.50% suggested improvements.
- Action Taken: Increased use of case-study-based learning and practical applications. Industry projects and experiential learning activities are now more strongly integrated into course delivery.

2. Freedom to Offer Opinions on Curriculum Design

- Key Findings: 50.00% rated this as *Excellent*, 37.50% as *Good*, while 12.50% rated it as *Needs Improvement*.
- Action Taken: Structured faculty involvement in curriculum revision through departmental review meetings. Faculty encouraged to actively participate in Board of Studies discussions for syllabus updates.

3. Effectiveness of Curriculum Design and Development System

- Key Findings: 25.00% rated it as *Excellent*, 37.50% as *Very Good*, while 12.50% felt improvements were required.
- Action Taken: Regular benchmarking of the curriculum against leading academic institutions. Periodic syllabus updates incorporating faculty and industry expert input.

4. Opportunity for Updating Curriculum

- Key Findings: 50.00% rated this as *Excellent*, while 12.50% indicated that opportunities for updating are insufficient.
- Action Taken: More frequent academic review cycles implemented. Faculty given structured channels to propose new subjects and curriculum modifications.

5. Organization and Suitability of Curriculum

- Key Findings: 50.00% rated the syllabus structure as *Excellent*, but 25.00% suggested that restructuring could improve course flow.
- Action Taken: Conducted curriculum mapping exercises to ensure logical sequencing of topics. Faculty workshops organized to align course content with pedagogical best practices.

6. Academic Autonomy in Course Delivery

- Key Findings: 37.50% rated autonomy as *Excellent*, 25.00% as *Very Good*, and 12.50% as *Needs Improvement*.
- Action Taken: More flexibility in course content delivery and assessment introduced. Faculty encouraged to use innovative teaching strategies, including flipped classrooms and blended learning models.

7. Balance Between Theoretical and Practical Learning

- Key Findings: 87.50% rated this as [illegible] highest-rated parameter.

Employer Feedback on Curriculum Design and Delivery (Summary)

1. Curriculum Relevance for Multidisciplinary Teamwork and Ethics

- Key Findings: 61.54% of employers rated this as *Excellent*, while 7.69% felt it needed improvement.
- Action Taken: Integrated more team-based projects and case studies. Strengthened ethics-focused training with real-world scenarios to reinforce professional responsibility.

2. Adequacy of Courses for Project Management in Industry

- Key Findings: 38.46% rated it as *Good*, 30.77% as *Very Good*, and 23.08% as *Excellent*.
- Action Taken: Increased project-based learning and expanded industry collaborations for practical project management training.

3. Technical Skill Development at Entry-Level

- Key Findings: 53.85% rated this as *Excellent*, while 7.69% found it lacking.
- Action Taken: Conducted a skill gap analysis with industry input. Introduced more lab-based technical training and industry-recognized certifications.

4. Scope for Interdisciplinary Electives

- Key Findings: 46.15% rated this as *Excellent*, 7.69% marked it as *Needs Improvement*.
- Action Taken: Added electives in emerging fields such as AI, Data Science, and Sustainability. Provided greater flexibility in elective selection.

5. Balance Between Theoretical and Practical Learning

- Key Findings: 38.46% rated this as *Excellent*, 23.08% as *Good*.
- Action Taken: Increased hands-on training, internships, and project-based assessments. Enhanced industry collaboration for real-world problem-solving exposure.

6. Emphasis on Lifelong Learning and Higher Education Readiness

- Key Findings: 61.54% rated this as *Excellent*, 7.69% felt it needed improvement.
- Action Taken: Introduced more open-ended research assignments, online certifications, and skill-enhancement courses.

7. Communication and Professional Skills Development

- Key Findings: 38.46% rated it as *Excellent*, another 38.46% as *Very Good*.
- Action Taken: Expanded training in communication, technical writing, and professional presentation skills. Added business communication and report writing workshops.

8. Adaptability to New Technologies and C[illegible]

JSS SCIENCE AND TECHNOLOGY UNIVERSITY MYSURU

- Key Findings: 53.85% rated this as *Excellent*, 15.38% found it inadequate.
- Action Taken: Introduced courses on IoT, Blockchain, and emerging technologies. Added industry-led training on new tools and software.

9. Ability to Analyze, Design, and Develop Systems in Real-Time Environments

- Key Findings: 53.85% rated this as *Excellent*, 30.77% as *Good*.
- Action Taken: Included simulation-based learning, live projects, and industry-driven research opportunities.

10. Adequacy and Transparency of Assessment and Evaluation

- Key Findings: 53.85% rated this as *Excellent*, 7.69% suggested improvements.
- Action Taken: Implemented standardized rubrics to ensure fairness and transparency in evaluations.

11. Relevance and Up-to-Date Learning Resources

- Key Findings: 38.46% rated resources as *Excellent*, another 38.46% as *Very Good*.
- Action Taken: Expanded digital library resources, included latest research and industry white papers for student access.

Curriculum Feedback Analysis Report (2024–2025)

B.E. in Information Science and Engineering

The curriculum feedback for the academic year **2024–2025** has been collected from all stakeholders and duly examined. Based on the inputs received from students, faculty members, industry experts, alumni, and parents, the following observations are placed on record:

- **Self-Learning and Term Work:** Stakeholders welcomed the inclusion of self-learning and unit-wise term work, which is helping students go beyond classroom teaching.
- **Learning Beyond Syllabus:** Departmental activities such as workshops, hackathons, seminars, and student-led events are giving students practical exposure and skill development.
- **Journals and Magazines:** Adding journals and magazines along with textbooks has been appreciated, as it keeps students updated with current research and trends.
- **SWAYAM/NPTEL in MOOCs:** Integration of SWAYAM/NPTEL courses with MOOCs has broadened access to quality digital content and supported flexible learning.
- **NPTEL Credits for Electives:** Credits earned through NPTEL are now accepted in place of professional electives, enabling students to pursue advanced courses from reputed institutions.

The report is submitted for further needful

Curriculum Feedback Analysis Report (2024–2025)

B.E. in Information Science and Engineering

The curriculum feedback for the academic year **2024–2025** has been collected from all stakeholders and reviewed. The following observations have emerged from the analysis:

- Independent Learning: Self-learning and unit-wise term work have encouraged students to study independently and strengthen their grasp of core and emerging areas.
- Beyond Syllabus Activities: Coding contests, project expos, workshops, and student club programmes are helping students gain practical skills and industry readiness.
- Journals and Magazines: Inclusion of technical journals and magazines has been well received, giving students access to latest technologies and professional practices.
- SWAYAM/NPTEL Integration: SWAYAM/NPTEL courses along with MOOCs have expanded learning resources and promoted self-paced study.
- NPTEL Credits for Electives: Credits earned through NPTEL are accepted in place of selected electives, allowing students to take specialized courses from national platforms.

ACTION TAKEN REPORT 2024-2025

SL.No	Agenda	Input / Feedback	Observation / Discussion	Action Taken (2024–2025)
1	Result Analysis	Students and parents appreciated improvements and requested more academic support.	Verified and approved by HoD and committee.	Self-Learning components and Term Work introduced to support academic performance.
2	Analysis of Not-Eligible for SEE Cases	Students requested clarity in CIE pattern.	Discussed and approved.	CIE guidelines and rubrics communicated; assessments aligned with 2024 scheme.
3	Courses on Emerging Technologies	Alumni and industry suggested adding trending technology topics.	Reviewed and approved.	Self-Learning modules and NPTEL/SWAYAM courses introduced for advanced topics.
4	Digital Learning Resources	Stakeholders recommended formal use of online platforms.	Discussed and accepted.	SWAYAM/NPTEL integrated with MOOCs; NPTEL credits allowed in place of electives.
5	Course Content Update	Faculty suggested including additional references.	Reviewed and approved.	Journals and magazines added to syllabus along with textbooks.
6	Learning Beyond Syllabus	Students requested more practical exposure.	Discussed and approved.	Workshops, seminars, hackathons, and project events encouraged in the 2024 scheme.
7	Review of Subjects in Higher Semesters	Students expressed concern over subject load.	Approved by committee.	Semester workload revised in the 2024 scheme.
8	Practical and Lab Enhancement	Industry suggested stronger practical exposure.	Discussed and approved.	Integrated laboratory sessions and term work components introduced.
9	Credit Distribution	Faculty suggested revising credits of selected subjects.	Reviewed and approved.	Credit structure modified as per the 2024 scheme

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Employer,

Greetings from JSS Science and Technology University!!!

Employer feedback on design and review of syllabus is important for an educational institution to understand the industry requirement and reframe the curriculum in accordance with the recent trends.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

09.01.2026 17:51

3.	The Curriculum assists the students to develop required technical skills at entry level in industry		✓			
4.	The Curriculum has adequate scope for interdisciplinary electives	✓				
5.	The curriculum offers adequate balance between theoretical and practical aspects			✓		
6.	The Curriculum emphasizes lifelong learning and higher learning through required on-the-job training		✓			
7.	The Curriculum helps the student in gaining the skills required to communicate effectively in a professional setting for complicated engineering operations by means of report writing, documentation and presentations	✓				
8.	The Curriculum have adequate scope for Adaptability to new technology/tool and ensures students zeal to be a constant learner	✓				
9.	The Curriculum instills capability to analyze, synthesize, design, develop and test systems/processes in a real time environment				✓	
Course Assessment, Evaluation and Learning Resources						
10.	Assessment and Evaluation pattern is adequate and judicious		✓			
11.	Learning resources prescribed in the curriculum is relevant and uptodate to the needs of the industry					
	Any other suggestions: 1. Students are capable. We ~~w~~ lack ~~g~~ grooming and guidance. For eg. Projects they are taking is not guided on by to exploit their potential. Guidance could be from the technical point of view like, what kind of build (maven, gradle) to use or how to manage the project source code effectively. Deploying the same in a public domain. or AWS.

Dear Employer,

Greetings from JSS Science and Technology University!!!

Employer feedback on design and review of syllabus is important for an educational institution to understand the industry requirement and reframe the curriculum in accordance with the recent trends.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Professors,

Greetings from JSS Science and Technology University!!!

Teachers feedback on design and review of syllabus play a major role in development of the program curriculum. Your feedback helps in improving the framework of scheme and syllabus of University.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

DEPARTMENT OF MATHEMATICS

To,

The Head of the Department,

Department of Mathematics,

SJCE, JSS STU, Mysuru.

FEEDBACK ANALYSIS REPORT (2023-24)

The feedback from the stakeholders for the academic year 2023-24 has been collected and analyzed. The following observations have been made from the feedback.

1. Students appreciated the interdisciplinary electives provided during the course.
2. Students have suggested providing internships during summer vacation.
3. Alumni have suggested to introduce project for a year or at least for a semester.
4.

The report is submitted for further needful.

Chairman
Dr. Veeresha R. G.

Member Convener

DEPARTMENT OF MATHEMATICS

Constitution of Feedback Analysis Committee

The following faculty members are nominated as the members of the Feedback Analysis Committee for the department. The term of the office of this committee is for three years from the date of issue of this letter. The committee is required to analyze the feedback received from different stakeholders and submit a consolidated report every year including recommendations for action to be taken

SJCE, JSS STU, Mysuru.

FEEDBACK ANALYSIS REPORT (2023-24)

The feedback from the stakeholders for the academic year 2023-24 has been collected and analyzed. The following observations have been made from the feedback.

1. Students appreciated the interdisciplinary electives provided during the course.
2. Students have suggested providing internships during summer vacation.
3. Alumni have suggested to introduce project for a year or at least for a semester.

The report is submitted for further needful.

Dear Professors,

Greetings from JSS Science and Technology University!!!

Teachers feedback on design and review of syllabus play a major role in development of the program curriculum. Your feedback helps in improving the framework of scheme and syllabus of University.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

1. Name: Sadhakal Kulkarni.

Dear Professors,

Greetings from JSS Science and Technology University!!!

Teachers feedback on design and review of syllabus play a major role in development of the program curriculum. Your feedback helps in improving the framework of scheme and syllabus of University.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

1. Name: Suresh.
2. Mobile Number: 8095272759.
3. E-mail Id: suresh@ssutuniv.in
4. Department: CMS
5. Designation: Asst Professor.
6. Years of service: 10+

Rate the following attributes w.r.t. to the design and review of syllabus using 5-point Likert scale

Excellent (5) Very Good (4) Good (3) Satisfactory (2) Needs improvement (1)

Teacher feedback on curriculum design and delivery						
Sl.No	**Content**	**5**	**4**	**3**	**2**	**1**
	Curriculum design					
1.	The courses/syllabi have adequate balance between theory and its application	✓				
2.	Adequate freedom is given to offer opinions on developing and designing curriculum.		✓			
3.	The system followed by the university for the design and development of curriculum is effective.		✓

Dear Employer,

Greetings from JSS Science and Technology University!!!

Employer feedback on design and review of syllabus is important for an educational institution to understand the industry requirement and reframe the curriculum in accordance with the recent trends.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Student,

Greetings from JSS Science and Technology University!!!

Students feedback on design and review of syllabus is necessary since students are the major stakeholders of the university. The student's feedback helps in improving the framework of scheme and syllabus.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Dear Employer,

Greetings from JSS Science and Technology University!!!

Employer feedback on design and review of syllabus is important for an educational institution to understand the industry requirement and reframe the curriculum in accordance with the recent trends.

We are thankful to you, for providing your valuable time to fill up this feedback questionnaire and provide us your suggestions for improvement of curriculum and enhance the credibility of our Institution. We assure you that your feedback will be treated confidentially and used constructively for our continuous improvement.

Feedback Analysis Report (2024-2025)

M.Sc in Physics

The feedback for the academic year 2024-25 for the M.Sc in Physics program was collected from the stakeholders via online. The Data collected and analysis are presented in the following pages. Most of the stakeholders have given the following suggestions:-

"More skills to make students ready for industry, should be trained more , and the gap between engineering and basic science branches should be lowered."

- Hence the course on "Python Programming for Physicists" has been planned to include in the curriculum in second semester in addition to the existing first semester course and laboratory on C Programming, Data Structures and Algorithms .
- Also a Project has been included in the fourth semester.

Student Feedback Analysis

	Course Design: The Students are given adequate opportunities to participate in the curriculum development	Course Design: Course contents are relevant to real life situations and my learning needs	Course Design: The co-curricular learning opportunities are adequate to support curricular learning	Course Design: The course contents are relevant to the demands of the industry	Course Design: Adequacy of availability of interdisciplinary courses	Course Design: The electives offered are in relation to the technological advancements.	Course Design: Adequate number of courses are offered with practical component	Course Design: The courses encouraged extra learning / self learning	Course Design: The distribution of courses for each category is sufficient for the student's overall development	Course Design: The aims, objectives and outcomes are well defined for the entire program.	Course Design: The level of course was apt for the year of study	Course conduction and Learning Resources for courses: The duration of course is sufficient.	Course conduction and Learning Resources for courses: Courses are evenly distributed over duration of the program	Course conduction and Learning Resources for courses: The study materials are accessible, relevant and useful.	Course conduction and Learning Resources for courses: Recommended books are adequate, appropriate and available.	Course Assessment and Evaluation : The course credits are allocated based on the recent trends	Course Assessment and Evaluation : The assessment pattern was judicious and reasonable	Course Assessment and Evaluation : Evaluation system was fair and transparent

Teacher feedback Analysis

	Curriculum design: The courses /syllabi have adequate balance between theory and its application	Curriculum design: Adequate freedom is given to offer opinions on developing and designing curriculum.	Curriculum design: The system followed by the university for the design and development of curriculum is effective.	Curriculum design: There is an adequate opportunity for updating curriculum periodically	Curriculum design: The curriculum and syllabus are well organized and suitable to the program	Curriculum design: Adequate academic autonomy in the delivery of the courses is provided	Curriculum design: The curriculum offers adequate balance between theoretical and practical aspects	Curriculum design: The curriculum is designed to meet industry standards.		Curriculum design: The university's environment is favorable for both teaching and research.	Curriculum design: The Curriculum has adequate scope for interdisciplinary and open electives	Curriculum design: Adequate scope is provided to use innovative methods and tactics for testing and evaluating students.	Curriculum design: Adequate scope is provided to use innovative methods and tactics for testing and evaluating students.	Curriculum design: The curriculum offers adequate opportunities on developing industry oriented skills	Curriculum design: The curriculum has adequate contents for developing entrepreneurial skills	Curriculum design: The curriculum encourages holistic development of students	Course Assessment, Evaluation and Learning Resources: The university has adequate infrastructure facilities to run the program		Course Assessment, Evaluation and Learning Resources: Flexible Assessment and Evaluation pattern

ALUMNI FEEDBACK ANALYSIS REPORT ON BACHELOR OF ENGINEERING (DEPARTMENT OF POLYMER SCIENCE AND TECHNOLOGY)
2024-2025

No.	Content	5	4	3	2	1
Curriculum Design						
1	The alumni are given adequate opportunities to participate in the curriculum development	13	10	1	4	0
2	The courses are pertinent to both societal requirements and job opportunities.	10	12	3	1	2
3	The curriculum encourages candidates to engage in lifelong learning.	13	10	2	3	0
4	The curriculum prepared me adequately for the job roles	11	11	3	2	1
5	The curriculum has adequate courses which develops employability skills.	10	8	6	3	1
6	The Curriculum has adequate scope for interdisciplinary electives	11	11	2	3	1
7	The curriculum enhanced my capacity for collaboration and communication.	10	13	1	3	1
8	The curriculum offers adequate balance between theoretical and practical aspects	10	13	1	4	0
9	The curriculum has adequately covered the prerequisites and fundamental skills needed for engineering profession.	13	11	2	1	1
10	There is Adequate Involvement of alumni in institute building.	15	7	4	2	0
11	The curriculum has courses ensuring adaptability of the programme to Industry.	9	14	1	3	1
Course Assessment, Evaluation and Learning Resources						
12	The Academic Resources are adequate to match the curriculum	13	11	1	3	0
13	Assessment and Evaluation pattern are fair and transparent and matches the global requirements	15	9	2	2	0

Feedback Analysis Report 2024-2025

The feedback on curriculum was collected from various stakeholders, including **students, faculty members, employers, alumni, and parents**, and the same analysed during the **Department Advisory Board (DAB) meeting held on 23/08/2025**. Based on the suggestions received, necessary considerations were made, and the curriculum revisions were discussed and presented in the **departmental Board of Studies (BOS) meeting held on 30/08/2025**.

The following key observations emerged from the overall feedback analysis:

1. **Alumni feedback:** Suggested inclusion of more skill-based courses and increased exposure to advanced characterization techniques.
2. **Faculty feedback:** Recommended incorporating Artificial Intelligence (AI)-related content into the curriculum.
3. **Employer feedback:** Emphasized the need for practical and industry-oriented skill-based training programs.

This report is submitted for further necessary action.

Action Taken Report (ATR) on the inputs on Curriculum design /Structure by stakeholders held on 30/08/2025 at Department of Polymer Science and Technology

Course: UG (Polymer Science and Technology)

Sl. No	Agenda	Observation/Discussion	Input/Feedback provided by			Action Taken
			Employer/ Industry	Alumni	Teachers	
1.	Feedback analysis on curriculum development	New Pattern of 2024 scheme approved	Mr. Vijaya Kumar suggested that increase on the job training and hands on experience of students to have balance skills.			We appreciate industry inputs. The department will focus more on live projects, industry-driven modules, and practical sessions that would address the suggestions. And, since last two BOS, we have been incorporating the topics on regulatory compliance and sustainability in all the suitable subjects. Additionally, there are separate subjects on additive manufacturing, & Sustainability.
			Miss. K S Sinchana suggested that 1.More industrial case studies, live projects, and plant visits to bridge theory–practice gap. 2.Merge Polymer Chemistry and Physics into [illegible], required [illegible], to de[illegible] core subject).

09.01.2026 17:51

			3.Provide industry-oriented training on how additives, fillers, and compounding variables influence material properties in real-world applications. 4.Advance testing exposure to students (ex: SEM, FTIR, DSC, DMA) 5.Introduce ASA material in plastic manufacturing and compounding modules. 6.Include awareness and practical exposure to GADSL, SOC/RoHS, VOC and REACH regulations, to ensure compliance-ready graduates for global industries. 7.Enhance CAD Laboratory with d 3D design actu essions. and materials
