Report On Awareness Program for Specially-Abled Kids"

Date: 25.05.2019

This report encapsulates the comprehensive outreach program conducted by the Electrical and Electronic Department at JSS Science and Technology University, Mysore. Under the title "program for specially-abled kids" this initiative aimed to instill the importance of education, particularly in the realm of electrical and electronic engineering, through engaging activities, interactive sessions, and the provision of essential educational materials. The report outlines the activities, impact, and the department's commitment to fostering positive community relationships and inspiring the next generation in the field of technology.

"Specially-abled kids" is a term used to describe children who have varying degrees of physical, intellectual, sensory, or developmental challenges. It is a more inclusive and positive term compared to traditional labels like "disabled" or "handicapped." The use of "specially-abled" emphasizes the unique abilities and potential of individuals rather than focusing solely on their challenges.

Here are some key points to understand about specially-abled kids:

- **Diversity of Abilities:**

Specially-abled children encompass a wide range of abilities and conditions. This includes physical disabilities, intellectual disabilities, sensory impairments (such as blindness or deafness), developmental disorders, and more.

- **Inclusive Language:**

The term "specially-abled" is part of a broader movement toward using more inclusive and person-first language. It emphasizes the individual's abilities before highlighting any challenges they may face

- **Person-First Approach:**

A person-first approach encourages acknowledging the person first and their condition second. For example, saying "a child with a disability" rather than "a disabled child" emphasizes the child's identity beyond their disability.

- **Individualized Support:**

Specially-abled kids may require individualized support, accommodations, and interventions to help them thrive. This can include educational accommodations, assistive technologies, therapy, and other forms of support.

- **Inclusive Education:**

Inclusive education aims to provide specially-abled children with opportunities to learn and socialize alongside their peers without disabilities. This approach promotes a sense of belonging and helps break down barriers.

TECHNOLOGY UNIVERSITY, C=IN

01.02.2024 20:26

- **Advocacy and Awareness:**

There is a growing emphasis on advocacy and raising awareness about the needs and rights of specially-abled individuals. Advocacy efforts work towards creating more inclusive communities and breaking down societal stigmas and barriers.

- **Parental and Caregiver Involvement:**

Parents and caregivers play a crucial role in the well-being and development of specially-abled children. They often engage in advocacy, seek appropriate support services, and work closely with educators and healthcare professionals.

- **Celebrating Abilities:**

The emphasis on "specially-abled" is about celebrating the unique abilities and potential of each individual. It encourages a positive and empowering mindset that focuses on what a person can do rather than what they cannot.

It's important to recognize the diversity within the community of specially-abled children and approach their needs holistically, considering not only the challenges they may face but also their strengths, interests, and aspirations. Providing a supportive and inclusive environment can significantly contribute to their overall well-being and development.

EVENT AND PROGRAM CONDUCTED FOR SPECIALLY-ABLED KIDS

Organizing events for specially-abled kids requires careful consideration of their unique needs and preferences. Here's an example of a simple inclusive event that aims to engage and entertain children with different abilities:

Event Activities:

- **Adaptive Art Station:**

Provide various art materials and adaptive tools, such as easy-to-grip brushes, textured surfaces, and large paper for those with motor challenges.

Have volunteers assist children in expressing themselves through painting, drawing, or sculpting.

- **Interactive Music Sessions:**

Arrange for live music performances with a mix of instruments, including those suitable for kids with hearing impairments (e.g., drums with vibration).

Offer hands-on experiences with musical instruments, allowing children to explore different sounds.

TECHNOLOGY UNIVERSITY, C=IN

01.02.2024 20:26

- **Sensory Play Zone:**
Create a sensory play area with activities like a touch-and-feel station, scented art materials, and a quiet space for relaxation.
Consider using tactile elements, such as textured fabrics and materials, to engage children with sensory processing challenges.
 - **Inclusive Games and Sports:**
Organize adapted games and sports activities that cater to various abilities, such as wheelchair races, inclusive relay races, and games with auditory cues.
 - **Storytelling Corner:**
Have a designated area for storytelling with a storyteller who uses inclusive storytelling techniques, incorporating visual aids and interactive elements.
 - **Accessible Snack Stations:**
Ensure that snack stations are accessible to children with different dietary needs, allergies, or feeding methods. Consider providing a quiet space for those who need a break.
 - **Inclusive Performances:**
Feature inclusive performances, such as a dance troupe with both abled and differently-abled members, showcasing the power of diversity.

BENIFITS OF THE EVENT TO THE DEPARTMENT/UNIVERSITY AND SOCIETY IN GENERAL :

Conducting programs for specially-abled kids can have a wide range of benefits that positively impact their development, well-being, and overall quality of life. Here are some key benefits:

- **Inclusive Education:**
Programs for specially-abled kids contribute to the promotion of inclusive education, allowing them to learn and socialize alongside their peers without disabilities. This fosters a sense of belonging and reduces social isolation.
- **Skill Development:**
Tailored programs can focus on developing specific skills based on the unique needs and abilities of each child. This may include academic skills, communication skills, motor skills, and activities of daily living.
- **Improved Self-Esteem:**
Participation in programs designed for specially-abled kids can enhance their self-esteem and confidence. Achieving success in various activities, whether academic, artistic, or physical, contributes to a positive self-image.

TECHNOLOGY UNIVERSITY, C=IN

In summary, programs for specially-abled kids play a crucial role in enhancing their overall quality of life, promoting inclusion, and providing opportunities for growth and development. These benefits extend beyond the individual child, positively impacting families, communities, and society as a whole.

The outreach program for specially-abled kids, proved to be a meaningful endeavor. By combining educational talks, interactive quizzes, material distribution, food support, and community interaction, we aimed to make a positive impact on the students' lives. The success of this program lies in the collective effort to instill the value of education and contribute to the overall well-being of the tribal school community.

Report On "Irrigation Pump Set"

Date: 20.10.2019

Explored the pivotal role IP sets play in sustaining crop growth, optimizing water resources, and ultimately contributing to the agricultural landscape's prosperity and unraveled the mechanisms, benefits, and challenges associated with irrigation pump sets.

ACTIVITIES

INTERACTION WITH FARMERS:

- Interacted with the farmers about the various ways IP sets have helped them over the years.
- Gained insights about the difficulties faced by the farmers during the usage of IP sets.

A BRIEF TALK ON THE TOPIC:

- Delved into the intricacies of pump set technology.
- Unraveled the science behind pump selection.
- Addressed various factors on which the efficiency of the pump sets depends on like water source, terrain.
- Highlighted about the specific water requirements of different crops.

IMPACT

- Discussions contributed to heighten awareness among farmers about the pivotal role these systems play in agriculture.
- By shedding light on the intricacies, benefits and challenges associated with irrigation pump sets, the talk empowered individuals to make informed decisions, fostering more efficient water usage, sustainable farming practices and increased crop yields.
- Ultimately, the impact resonated in the border agricultural community, shaping conversations and actions towards a more resilient and productive future.
- One significant hurdle lies in the energy consumption of these systems. The demand for electricity to power pump sets can be substantial, posing both financial and environmental concerns.
- Additionally, maintenance issues, ranging from wear and tear to clogging, can disrupt the seamless operation of pump sets, requiring timely interventions.

01.02.2024 20:26

- Access to water sources is another challenge, especially in regions facing water scarcity or unpredictable supply. Efficient water management and ensuring equitable distribution are crucial aspects that demand attention.
- The upfront cost of acquiring and installing irrigation pump sets can be a barrier for small-scale farmers, limiting their access to this technology.

RECOMMENDATIONS

- Invest in energy-efficient pump sets and explore alternative energy sources like solar power to reduce operational costs and environmental impact.
- Implement a proactive maintenance schedule to address wear and tear promptly, ensuring the longevity and consistent performance of the pump sets.
- Adopt precision irrigation techniques such as drip or sprinkler systems to optimize water usage and enhance crop yield.
- Provide farmers with training on the proper operation and maintenance of pump sets, empowering them to maximize efficiency and troubleshoot common issues.

It's evident that these systems are indispensable for modern agriculture. Their role in providing a controlled and efficient water supply to crops is pivotal for maximizing yield. However, addressing issues like energy efficiency, proper maintenance, and adopting smart technologies are key considerations for a sustainable and effective irrigation system in the future.

DEPARTMENT OF ENVIRONMENTAL ENGINEERING

A Report on 'Beat Plastic Pollution' Awareness Campaign

As part of the Swachhata Hi Seva 2019 programme, Department of Environmental Engineering conducted awareness campaign on 'Beat Plastic Pollution' for school children of 7th to 9th standard, JSS Public School on 05/11/2019 at 1:30 pm. Students of 5th (14 students) and 7th semester (5 students) Department of Environmental Engineering volunteered to conduct the activities. Activities included:

- A power point presentation containing basic information (along with videos) on plastic generation, harmful effects on human and animals, alternatives to plastics, etc.
- Pledge - was administered to all participating students
- Demonstration of single use plastic and their possible alternatives
- Questionnaire with general questions on awareness and effects of plastics
- Making of paper bags to be used in dustbins instead of plastic bags to collect trash

The students addressed in this event were from 7th, 8th and 9th standards; each having two sections of upto 40 students. Both the sections of each standard were made to sit in the symposium hall where they listened to the presentation, took the pledge, learnt on single-use plastic commonly used and their possible alternatives. Then they were taken back to their respective classrooms for the classroom activities. Questionnaire was given to each students and their responses were collected. Also, making of paper bag that could be used to place in the

e-mail: csb@jssstuniv.in csbasjce.ac.in

dustbin to collect trash was demonstrated in class and every student was given hands-on opportunity to make a paper bag. Responses to the questionnaire is summarized. It can be noted that due to a combination of the prior knowledge and the information obtained through this event, most of the students are aware of the harmful effects of plastics and the alternatives to single-use plastic. It is a matter of strict implementation of non-usage of single-use plastic. It was also noted from the responses that the students think that the society do not have enough information about the effects/dangers of plastic bags. Overall, the event was successful in spreading awareness of harmful effects of plastic and help children realize the importance of alternatives to single-use plastics. Their enthusiasm and active participation is appreciable.

PLEDGE

I pledge to refuse the use of plastic and I pledge to educate others about the plastic waste and the harm it causes. I pledge to take action to make plastic pollution a thing of the past. Thus, saying no single-use plastic, I pledge to save my mother earth in every way I can.

JSS Centre for Management Studies (JSS CMS), Department of Management Studies, Sri Jayachamarajendra College of Engineering (SJCE), JSS Science and Technology University, Mysuru, organizing a National Level Management Competition “Management Innovation for Excellence MANNOVEX - 20” at JSS Centre for Management Studies, Mysuru on **09/01/2020**.

JSSCMS organizes National Level Management Competition and Management Fest every year as a part of student activities in the name of “MANNOVEX – Management, Innovation for Excellence”. This event is one of the successful inter collegiate national level management festival for the Post Graduate Management Students. It is an opportunity that allows interaction and exchange of management concepts and ideas. Participants will showcase their Managerial, Analytical and Strategic Acumen in the competitive environment.

As a part of this national level management fest, blood donation camp was organized by JSS Centre for Management Studies (JSS CMS), Department of Management Studies, Sri Jayachamarajendra College of Engineering (SJCE) in association with JSS Hospital, Mysuru.

Participant donating blood in MANNOVEX – 20

Around 300 Participants have participated in this event for the noble cause and donated blood. The donors were served the refreshments and they had to take rest for some time. Even the staff members also donated in this blood donation camp. It was a successful event that surely would have made an impact to someone's life and overall, to the society.

Report on Swachhata Pledge

Swachhata Pledge

Prime Minister Shri Narendra Modi exhorted people to fulfil Mahatma Gandhi's vision of Clean India. The 'Swachh Bharat Abhiyan' is a massive mass movement that seeks to create a Clean India. Cleanliness was very close to Mahatma Gandhi's heart. A clean India is the best tribute we can pay to Bapu when we celebrate his 150th birth anniversary in 2019. Mahatma Gandhi devoted his life so that India attains 'Swarajya'. Now the time has come to devote ourselves towards 'Swachhata' (cleanliness) of our motherland.

Pledge to Segregate

I pledge to segregate my (household, shop, establishment) waste in two dustbins, wet waste in Green and dry waste in Blue, as my contribution to the Swachh Bharat Mission.

Swachhata Pledge

Mahatma Gandhi had dreamed of an India which was not only free but also free clean and developed.
Mahatma Gandhi secured freedom for Mother India.
Now it is our duty to serve Mother India by keeping the country neat and clean.
I take this pledge that I will remain committed towards cleanliness and devote time for this.
I will devote 100 hours per year that is two hours per week to voluntary work for cleanliness.
I will neither litter nor let others to litter.
I will initiate the quest for cleanliness with myself, my family, my locality, my village and workplace.
I believe that the countries of the world that appear clean are so because their citizens don't indulge in littering nor do they allow it to happen.
With this firm belief, I will propagate the message of Swachh Bharat Mission in villages and towns.
I will encourage 100 other person to take this pledge which I am taking today.
I will endeavour to make them devote their 100 hours of cleanliness.
I am confident that every step I take towards cleanliness will help make my country clean.

Swachhta Hi Seva (SHS) 2019, a Jan Andolan for Swachhta, is proposed to be organized from 11th September to 2nd October 2019. It is the Massive community mobilization for Plastic Waste Shramdaan and banning of Single Use Plastics (SUPs). This year's campaign focused on **Plastic Waste Management**, given the detrimental effect of uncollected plastic waste on human beings, animals and the environment at large.

on

“VANAMAHOTSAVA” – PLANTATION OF SAPLINGS”

As a part of Swachhta Pakhwada 2020, Department of Biotechnology was assigned the all-important responsibility of “**VANAMAHOTSAVA**” – **PLANTATION OF SAPLINGS on 5th February 2020**. Further the programme, road-map was also structured including identifying the area where planting of saplings to be done and also species of saplings to be selected depending upon the present weather and soil conditions. On 5th February all the faculty members of Biotechnology and Environmental Engineering gathered in the planting area by 10.30 AM along with students for “Plantation of saplings”.

Department of Electronics & Instrumentation

Swachhtha Pakwada 2020

Best out of Waste Competition

Best out of Waste Competition was conducted on **8th February 2020**, in **EI 203** (PG class room) by the department of Electronics & Instrumentation under **Swachhtha Pakwada 2020**. Four groups have participated in the competition. **Dr. S Gayathri**, Dept. of Electronics and communication and **Dr. Bharathi R K**, Dept. of Master of Computer Applications were the members of the Jury panel.

Details given below:

Sl. No.	Group. No	Name of the student	Remarks
1.	1	Meghana M V (Dept. of E&I)	II Prize
		Johnavi A (Dept. of IS)	
2.	2	Yuktha J (Dept. of CTM)	I Prize
3.	3	Sahana (Dept. of E&I)	III Prize
4.	4	Impana C (Dept. of E&I)	Consolation Prize
		Rohith Rangathan (Dept. of CTM)	

Evaluation sheets by the Jury members and the photos are enclosed herewith.

A report on CLEANLINESS PROGRAMME IN BOYS AND GIRLS HOSTEL

In connection with Swachhta Pakhwada – 2020, the Department of Electrical and Electronics Engineering and Electronics and Communication Engineering has conducted “CLEANLINESS PROGRAMME IN BOYS AND GIRLS HOSTEL” located within the premises of JSS Technical Institutions campus, conducted on 08.02.2020. The students of both the department and Hostel students were involved in the cleanliness activities in and around the hostel premises. The programme was started by taking Swachhta Pledge by all the participants and massive cleaning was done to maintain the hygienic conditions around the hostels by collecting the waste materials like E-Waste, dry leaves, waste papers, Cleaning the corridor and floor of the hostel. Collection and Segregations of recyclable and non-recyclable were also made and Organic waste was also collected separately to use further as manure. Further, awareness was also created among the hostel residents on harmful effects of smoking and chewing tobacco etc. and awareness about biodegradable and non-biodegradable waste was addressed.

Active involvement of students and faculty members in cleanliness activities in the Boys

COVID19 Awareness event by Students during LOCKDOWN

STUDENT AWARENESS

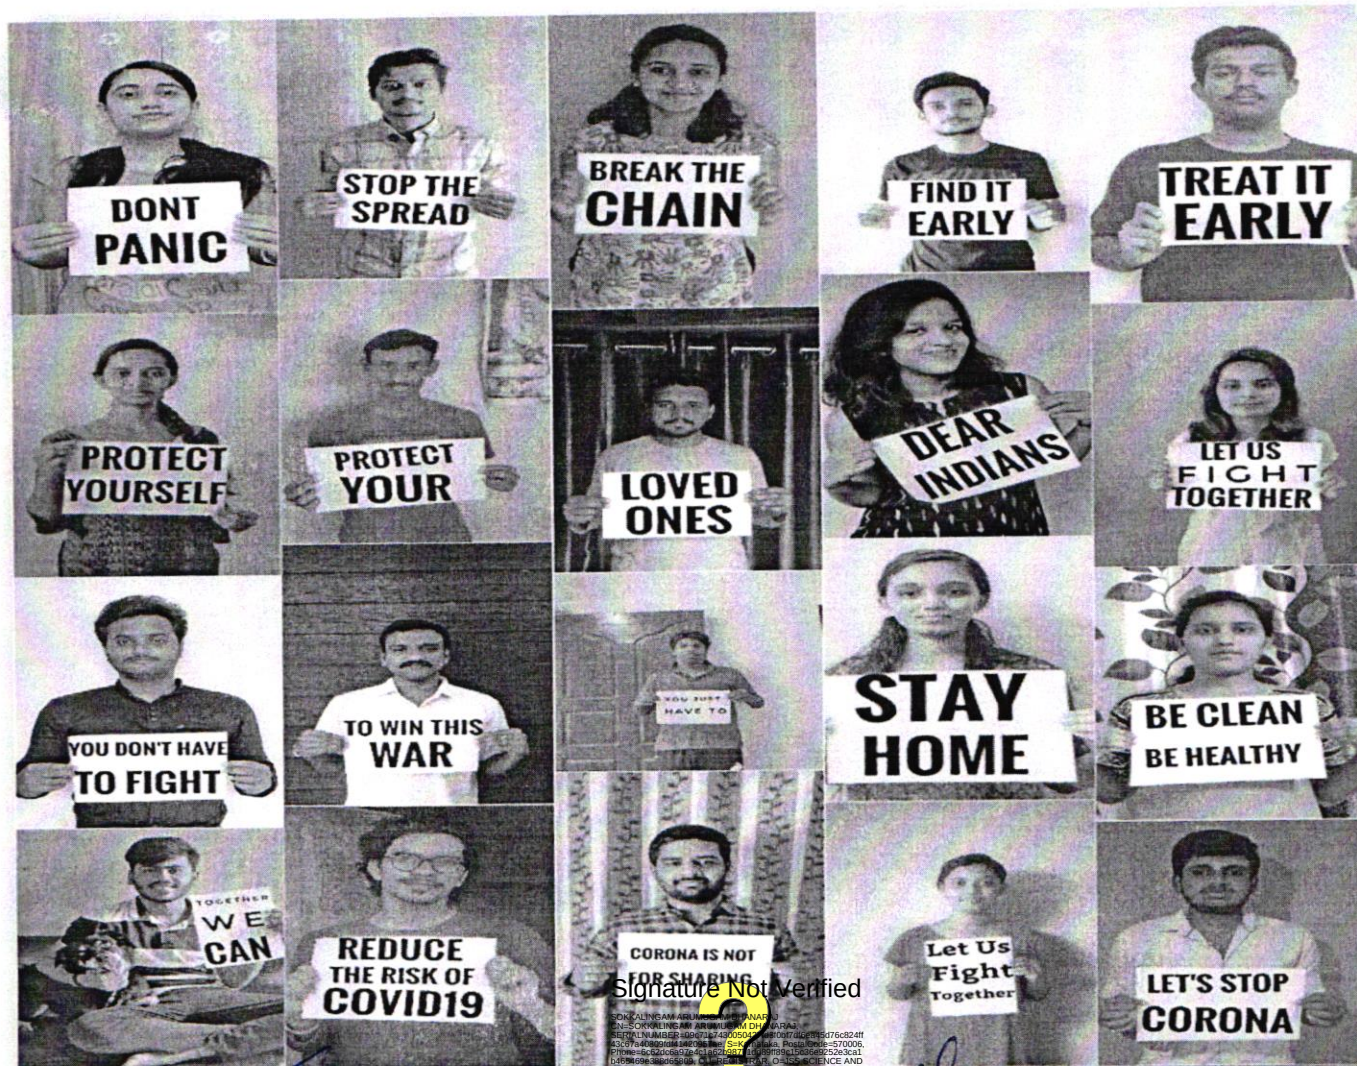

Under

Ek Bharat Shrestha Bharat Program

DATE: 23-04-2020

During the period of lockdown, the students of M.Sc chemistry of JSS Science and Technology University, created an awareness video regarding the present pandemic COVID-19 by merging the pictures of students holding the placards by staying in their respective homes.

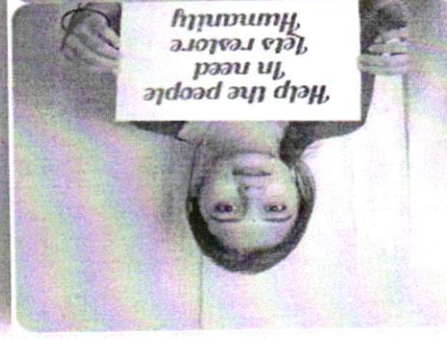

The video was done by the view of creating awareness among people to protect themselves from the deadly virus by staying in their respective homes and protecting their loved ones.
