

Higher education Training programs under Placement cell

The Training and Placement Cell at JSS Science & Technology University serves as a pivotal hub for students' career progression. Situated on the 2nd floor of the Golden Jubilee Bhavan, it offers comprehensive support. Beyond facilitating job placements, the cell also focuses on empowering students for higher education pursuits. Through rigorous training sessions tailored for exams like IELTS, GRE, and Gate, it equips students with the necessary skills. Moreover, interactive sessions aid in elucidating post-graduation options, ensuring informed choices. Strengthening its commitment, the cell collaborates with KC Overseas consultancy, which has established an office in the college premises itself whose photo is attached below. The collaboration aims at providing counseling the students for higher education while extending expert guidance for exploring diverse avenues in higher studies.
