Respected Sir,

Sub: Approval for up-gradation of the Process Control and Automation Laboratory at our department.

Process control and automation laboratory, the core laboratory for our (Electronics and Instrumentation) discipline, needs to be upgraded. Up-gradation will help the students in understanding the advanced concepts of automation to higher level, through experimentation and demonstration. The up-gradation plan is to interface the new supervisory control and data acquisition system (SCADA) with the existing programmable logic controller (PLC) in the laboratory and also to interface to the existing process loops.

This upgradation would create state of the art facility and enable our students to gain skills as per outcome based education (OBE).

This upgradation would cost approximately Rs. 372169/- (Three lakh seventy two thousand one hundred and sixty nine only). A batch of our alumni (1984 - 88) has come forward to bear the cost of upgradation. Some of the alumni of this batch are experts in the field of SCADA and PLC.

Kind permission is sought to initiate this important work. This act of our alumni would yield positive feedback and score in our NBA.

Thanking you

Yours' faithfully

Kindly note: Quotation is enclosed for your kind reference.

Sir,

Sub: Up-gradation of the Process Control and Automation Laboratory at
department of E&I, SJCE, Mysuru.

Ref: JSS STU/DVP/E&I/2021-22/12 Dated 01.04.2021

With reference to the subject cited above, I hereby convey approval of the Vice Chancellor for up-gradation of the Process Control and Automation Laboratory at department of E&I, SJCE, Mysuru from M/s. Stellant System Pvt. Ltd., Bangalore at a cost of Rs. 3,76,129/-.

The expenses of Rs. 3,76,129/- shall be borne by alumni's of batch 1984-88, IT department.

Sl No	Product	Make	Qty	Discounted Total Price
A	Supply			
1	6 Channel Analog expansion. (4) Analog inputs & (2) Analog outputs. 120/240 VAC Power Supply	Emerson (GE)	1	Rs. 2,49,753/-
2	Ethernet to Serial Interface	Emerson (GE)	1	
3	PAC Machine Edition Lite development Suite	Emerson (GE)	1	
4	Climplicity 50 IO Development cum Runtime server	Emerson (GE)	1	
5	Battery for 23 and 28 points Micro for data retention	Emerson (GE)	1	
6	Internet wiring of the modules	Reputed	LS	
B	Engg Services			
7	Labour charges for wiring	SSPL	LS	RS 69,000/-
8	Programming support & Training per Semester (3 visits, each 2 days) also AMC support is covered during the same visit	SSPL	2	
Total				Rs. 3,18,753/-
Add: GST 18 %				Rs. 57,376/-
Grand Total				Rs. 3,76,129/-

Thanking you

SUBJECT: UPGRADATION OF PLC SYSTEM AND TRAINING

MOM Content as follows

M/s SSPL Engineer Sreenath P H and Technician Mohan Kumar reached the college on 02/10/2021 and following works were completed.

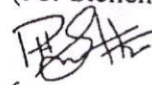

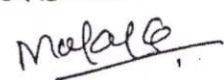

1. The PLC configuration Software (PAC Machine Edition v 9.8) and SCADA software (Cimplicity v10) installed in 2 separate PCs and activated the License for both the software.
2. Installation and wiring of modules IC200SET001, IC200UEX636, IC200ACC403 (1 Installed and 1 is given as spare) and Ethernet Switch is completed.
3. Hardware Configuration in PLC program updated as per the new modifications.
4. Communication of PLC with both PCs established.
5. Sample PLC & SCADA program made for demonstrating the working of PLC and SCADA.
6. All the IOs from the Training Kit is Loop checked from SCADA and found OK.
7. Basic Training given to the SJCE faculties for creating a SCADA Screen, PLC Logic, PLC Hardware troubleshooting, and Communication between SCADA and PLC.
8. Variable Speed Drive (VAT20) is found faulty and is given to SSPL for servicing. Cost of Servicing the Drive is to be considered as Separate.
9. One Set of Hardware and Software Manuals for PLC and SCADA to be provided later.
10. Both Engineer Sreenath P H and Technician Mohan Kumar left the department on 03/10/2021 evening.

Respected Sir,

To introduce myself, I'm Aditya, an alumnus of the 2009-13 batch of Instrumentation Technology. I am fascinated by Linux and its potential. I believe as engineers, its a huge boost to have some working knowledge of Linux.

I would like to conduct workshops on Linux on a weekly basis in the campus. Transferring the little knowledge that I have in this amazing domain can really help the students in doing great projects in the future and hopefully even contributing to the open source community (which is the goal of FOSS).

Rough Agenda:

Although everything is not planned, I'd like to begin with the evolution of Real Time Operating Systems and then discuss about the concepts on what makes an operating system. The sessions will then take a Linux approach and dwell mostly into trying a lot of stuff on the Born Again Shell (BASH), especially writing shell scripts and if possible, depending on the response, would be extending to the concepts of Linux sitting at the heart of Android; not app development but more on the lines of building custom Android OSes on top of the Linux Kernel. I plan to host a YouTube channel in parallel with the sessions to accommodate all the topics I mentioned because it is not possible to discuss everything in the sessions.

Timings:

The first session would be on 31st January.

I would like to take it every Saturday from 3:30 to 5:30 pm.

Requirements:

A classroom with whiteboard and projector.

Pre-requisite knowledge:

Basics of Digital Electronics. Knowledge on the basics of micro-controllers is beneficiary.

The workshop would be free of cost and no prior knowledge of computer science is required. Open to all branches and semesters.

I don't have any intentions of making any money out of this.

Kindly grant permission for this venture.

Regards,
Aditya

Dear Sir

Sub: Permission to teach Linux every Saturday from 3:30 to 5:30PM

With reference to the above subject, I request you kindly give permission to Mr. Aditya, to teach Linux operating system in the class room I.T. 202, every Saturday from 3:30 to 5:30, since this subject is very useful for placement.

Thanking you,

Yours Sincerely

V. Udayashankara

Respected Sir,

To introduce myself, I'm Aditya, an alumnus of the 2009-13 batch of Instrumentation Technology. I am fascinated by Linux and its potential. I believe as engineers, its a huge boost to have some working knowledge of Linux.

I would like to conduct workshops on Linux on a weekly basis in the campus. Transferring the little knowledge that I have in this amazing domain can really help the students in doing great projects in the future and hopefully even contributing to the open source community (which is the goal of FOSS).

Rough Agenda:

Although everything is not planned, I'd like to begin with the evolution of Real Time Operating Systems and then discuss about the concepts on what makes an operating system. The sessions will then take a Linux approach and dwell mostly into trying a lot of stuff on the Born Again Shell (BASH), especially writing shell scripts and if possible, depending on the response, would be extending to the concepts of Linux sitting at the heart of Android; not app development but more on the lines of building custom Android OSes on top of the Linux Kernel. I plan to host a YouTube channel in parallel with the sessions to accommodate all the topics I mentioned because it is not possible to discuss everything in the sessions.

Timings:

The first session would be on 31st January.

I would like to take it every Saturday from 3:30 to 5:30 pm.

Requirements:

A classroom with whiteboard and projector.

Pre-requisite knowledge:

Basics of Digital Electronics. Knowledge on the basics of micro-controllers is beneficiary.

The workshop would be free of cost and no prior knowledge of computer science is required. Open to all branches and semesters.

I don't have any intentions of making any money out of this.

Kindly grant permission for this venture.

Regards,
Aditya

Willingness letter from IT' 88 batch

1 message

Ram Kashi <ram@koopid.ai>

To: "kshalla_15@sjce.ac.in" <kshalla_15@sjce.ac.in>

Thu, Apr 1, 2021 at 3:47 PM

Dear Dr. Shailaja Madam:

Greetings from the IT batch 1984-1988. We would like to make a small gesture as a token of our appreciation to the wonderful education that was imparted to us during our four years at our Alma Mater. It was these formative four years that have largely helped shape our careers and what we are today. Our batch would like to contribute by sponsoring elements that would help upgrade the process control and automation lab, utilizing existing hardware. More specifically, based on discussions with the faculty of the IT department, the plan is to provide the necessary software elements such as SCADA and some additional hardware components that would help build this setup. We will also make sure that adequate initial training is given by the vendor to the staff and students to make sure that this lab will add the requisite value as we envision it to be.

We request that the University staff and students make the best use of the system and maintain it by engaging the vendor in AMC and further vendor support to the Teachers as appropriate in the years ahead.

Request you to kindly approve our willingness in this effort. If there are any questions, please reach out to our representative of the 88 batch, Dr. Ram Kashi (+918971100113).

Regards

Dr. Ram Kashi

On behalf of the Batch of 1984-88, IT department
