Dear Sir,

Subject: Submission of report & bills pertaining to one day Workshop ('DecaTrait') for staff, researchers & students on "Application of our ancient spiritual principles to teaching and research" and interaction session on "better performance and career building" - reg

- # - # - # - # -

I acknowledge the support granted by Principal, TEQIP-3 team and concerned officials that has helped us to successfully conduct the one day Workshop ('DecaTrait') for staff, researchers & students on "Application of our ancient spiritual principles to teaching and research" and interaction session on "better performance and career building" on 16th January 2019 at our campus by Dr. P. R. Mukund, Professor, RIT, USA.

In this regard, the documents mentioned below have been attached with this covering letter and are been submitted with a request for reimbursement of expenditure from TEQIP-3. A total of rupees four thousand eighty nine only has been incurred to organize this event. Kindly pay me (M P Chandresh) Rs. 3089/- and Rs. 1000/- to STEP guest house.

1. Permission letter (college)
2. Brochure / Invitation / Event Schedule
3. Feedback Form
4. Report
5. Expense statement
6. Certified Receipts / Bills
7. TA / DA form / Vouchers

Thanking you in anticipation,

FEEDBACK FORM

Your feedback is critical for the organizing team to ensure we meet your educational needs. We would appreciate if you could take a few minutes to share your opinions with us so we can serve the community better.

Event Title: Decatrait- workshop for success (Teqip-3 initiative)

Date: 16th January 2019

Given the topic, this seminar was ☐ a. Too short ☒ b. Right length ☐ c. Too long

In your opinion, this event was: ☐ a. Introductory ☒ b. Intermediate ☐ c. Advanced

Please rate the following:

	Excellent	Good	Good	Fair	Poor
a. Overall event	☒	☐	☐	☐	☐
b. Resource Person	☒	☐	☐	☐	☐
c. Quality of Presentation	☒	☐	☐	☐	☐
d. Delivery Content	☒	☐	☐	☐	☐
e. Video and Acoustics	☒	☐	☐	☒	☐

4. Would you recommend this event?

Definitely not to recommend ☐ unlikely to recommend ☐ recommend with reservations ☐ likely to recommend ☐ recommend with enthusiasm ☒

5. How could the event be improved?

By showing some videos.

6. What did you most appreciate/enjoy/think was best about the event?

The 10 sutras.

23/7/2019-20

Respected Sir,

Sub.: Report of one day invited talk under TEQIP III.

With reference to above subject, the dept. of CS&E conducted one day invited talk on **"Undergraduate Project/Research Orientation: Importance, Benefits and Challenges"** on 27-09-2019 under TEQIP 'II' for students of CSE. In this regard, we are hereby submitting the details and expenditures of the program. We request you to reimburse the amount spent for the program Rs. 5,489/- and oblige.

Thanking you,

Yours sincerely,

Coordinators: 1.

SUMMARY (Report)

The session started at 10AM with Prof. Mohana Krishna as speaker. He started the discussion with the overview of Software Architecture, which is essential for planning complex projects. Project consumes resources, gives the output, it should have some value for others i.e., it should serve some societal needs. As engineers, the difference between 'knowing' and 'doing' should be understood well. The domain area and problem statement should be chosen such that selected project can be culminated into publication, patent or start-up. For that to happen, students must develop high order thinking skills which should comprise of knowledge, comprehension, application, analysis, synthesis and evaluation. There must be lifelong learning for constant adoption: Knowledge indicates—WHAT should be gained, Skills are developed through constant search of HOW to do things and attitude relates to questioning WHY.

Innovation and creativity are need of the hour for entrepreneurship. Creativity is the generation of ideas whereas innovation refers to implementation of these ideas. Desired change can be brought by creativity, critical thinking (generating and selecting ideas) and innovation (turn creativity into products, processes and services). All innovations need not be breakthrough but can be incremental. Zones of innovation are game changer (3D printers, self-driving cars), disruptive (PC, cell phone, ride hailing apps), breakthrough (black and white televisions, instant noodles) and incremental (Multi-blade razor, hammer with rubber handle).

There is huge amount of data available due to the use of internet. The steps to convert data to actionable insight include:

Data -> Information -> Knowledge -> Understanding -> Wisdom

Information: Data becomes information when it has meaning and we understand context and relationship – the who, what, where and when.

Knowledge: knowledge is information aggregated to a point where it has meaning and purpose.

Understanding: Understanding is cognitive and analytical. It is the process by which one can synthesize new knowledge from what was already known.

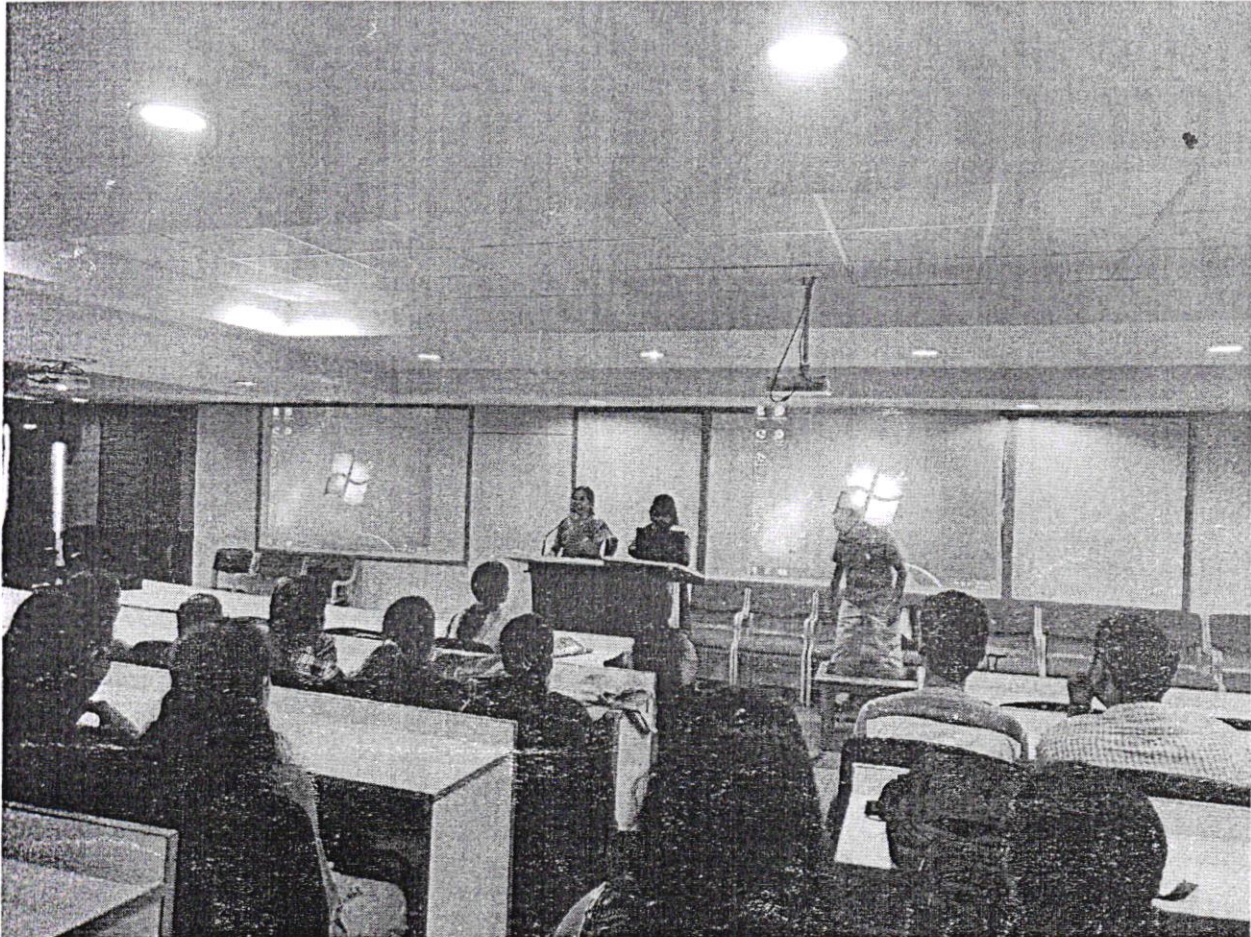

Wisdom: Wisdom builds on our past to give us new understanding and, by incorporating values, judgement and experience, the ability to predict.

One should learn to deal with the information overload. Organizing and pre-processing data is an important step in Big data and Data science projects. Students must be aware of the available free benchmark datasets and automated analysis tools. Data mining, Data analytics, Big data and Machine learning are some of the domains in which students can carry out projects that meets the

In his stint of 20+ years in the industry working for reputed companies like IBM, Infosys, Cognizant and a start-up, he has played a range of roles including Principal Architect, Principal Consultant, Solutions Delivery Manager, and Product Engineering Lead, responsible for solution prototyping, technology evaluation, architecture definition and delivery of large projects and products predominantly based on Java and web technologies. All through this period, he has focused on leveraging the latest technology and emerging software engineering practices for business advantage and differentiation through use of reusable assets, engineering best practices, tools and automation. He also was actively involved in training software development teams to harness these practices in projects.

Earlier, he served as an Assistant Professor of Computer Science and Engineering at SJ College of Engineering, while also serving as a consultant for several IT projects of the Directorate of Technical Education, Government of Karnataka. He worked at Wipro Infotech and the Indian Space Research Organization (ISRO) as a hardware design and test engineer prior to the term in academics.

He holds a Masters degree in Computer Science and Engineering from the Indian Institute of Technology, Kanpur and a Bachelors degree in Electronics and Communications from SJ College of Engineering, Mysore.

Respected sir,

Sub: Reimbursement of expenditure incurred towards two day workshop through TEQIP III

With reference to the subject cited above the abstract for expenditure incurred towards two day workshop "Research Proposal Preparation" on 5th & 6th September 2019. The total expenditure is **Rs. 60,251.08/-** (Sixty Thousand two hundred and Fifty One and Eight paise only). Kindly reimburse the amount and oblige for the same.

Thanking you,

SJCE-TEQIP-III
Head of A/C. TECIP. F.S.D & Y.
Admitted & Passed for Payment of
Rs. 31,768/-, Rs. 47/-, Rs. 15,842/-
Paid by Cheque/PAIS No. _____

Consolidated report

Title: Two days FDP "Research Proposal Preparation" under TEQIP-III (NPIU initiative)

Conducted on 5th and 8th September 2019 at EC Seminar Hall.

Total number of participants: 55 (Internal: 49 External : 06)

On 5th Sept Thu Course was inaugurated by Dr N. Suresh, Prof and HOD-Civil Engineering Department, NIE Mysuru. Participants, Dr Shankaraiah, coordinators, department staff were present.

Session -1: Topic-NABL accreditation and Research Lab facility, case studies

In his key note address Dr Suresh emphasized the need of these types of courses for the betterment of teaching fraternity and research scholars. Research Lab facilities requires NABL accreditation to maintain global standards. He gave detailed procedure to be followed for global accreditation. Several case studies were discussed in different domains and specially related to Civil Engg. Documentation regarding research activities related to NABL accreditation was presented in detail.

Session-2: Topic-Research proposal preparation and National funding agencies

Dr K.R Prakash of NIE, Departmental of Mechanical Engg , started with list of different national agencies sponsoring research. He explained what are the points to be highlighted in the proposal for acceptance. Prakash gave some examples on fundamental, product oriented, domain oriented, multi disciplinary research proposals. He emphasized the need for multidisciplinary and collaborative research proposals, which are readily accepted. Prakash gave a list of agencies which are not only sponsoring agencies but faculty can do research under the scheme towards PhD.

Afternoon Session -3: Topic-Startups and case studies

Speaker was Dr Dattakumar, of EXCEL soft. He gave some case studies, which focused on need to become successful entrepreneurs. Government has number of schemes to support several startups. Dattakumar gave several tasks to participants on writing proposal for startups. He mentioned various societal problems of interest which requires engineering solutions. As it is difficult get Govt jobs or other jobs because of stiff competition, anyone can become an entrepreneur by properly identifying the societal needs. This was an interactive session.

Session-4: Topic-Preparation of Research proposals for funding, challenges and opportunities

Dr J. Sundarrajan, Former Deputy Director, CPRI was the speaker. He started with several common mistakes a proposal writer will do during proposal writing. He gave a list of important

Aspects one has to concentrate to get his/her proposal approved. Several important points like objectives, problem definition, infrastructure already having and needed for research, time schedule, proper documentation, monetary support required etc were explained. Sundararajan also gave list of industries that are supporting research. He also mentioned how quality research is important for growth of institutions.

Day-2, 6th Sept 2019-Friday

Session-5 & 6: Topic: Incubation, Internship, consultancy and training

Prof S.V.Sudhir, Former faculty of NIE and a successful entrepreneur started his presentation with how he became an entrepreneur after completing several years of teaching. Department final year students also attended the session. Several areas of interest in which research is possible were highlighted. Rich practical experience and monetary support are important for startups. He gave number of examples of successful entrepreneurs. Participants were given assignments and both the sessions were very interactive

Session-7 & 8: Topic: Research proposal for PhD work, Data analysis with primary and secondary data.

Speaker: Dr M.Mohan Ram, Associate Prof., Department of IP & Engg, NIE, Mysuru.

He started with some case studies. In the case studies he demonstrated which are the common points on which proposals are accepted and rejected. How data analysis is important in writing effective proposals. Problem definition, goals, specific outcomes, finance distribution, proper documentation, report submission were discussed. Field data collection is important for successful implementation of projects. Mohan Ram emphasized the need for practical validation of simulation works. Using of ICTs in implementation solve most of the difficult hardware implementations. He also explained how to classify data as primary and secondary.

There was a valedictory which was attended by I/C principal Dr Prabhuswamy, HOD ,Chief guest-Mohan Ram and Dr M.N.Jayaram gave a overview of the different sessions. Certificates were distributed and feedback from participants was collected.

TEQIP- III SPONSORED WORKSHOP ON "RESEARCH PROPOSAL PREPARATION"

Research proposal preparation workshop inaugural function sponsored by TEQIP 3 was conducted on 5 th September 2019 for 1 hour between 10-11 AM. The workshop was organised by Electronics and communication department. The program was held at EC seminar hall. Dr. N Suresh prof.&Head, CivilEngineering,NIE was a chief guest, and Dr. M N Jayaram, Associate professor ,dept.of E&C, Dr. B Manoj Kumar, Prof. &teqipco-ordinator, by Dr. Shankaraiah, Prof.& head dept. Of E&C were the dignitaries present in the Inaugural function.

The program was co-ordinated by Dr. M.N Jayaram, Professor, Department of E&CE, SJCE, Prof.Chandrashekar Murthy B. N Assistant Professor, Department of E&CE, SJCE, Mysuru and Prof. Supreetha M. Assistant Professor, Department of E&CE, SJCE, Mysuru. The Programme Convenor was Dr. Shankaraiah, Professor & Head, Department of E&CE, SJCE, JSSSTU, Mysuru.

Inaugural function began with the invocation song. The auspicious lamp lighting ceremony was done by all the dignitaries present.

Welcome speech was done by Prof. Supreetha M, Associate professor, dept.of E&C .Dignitaries were welcomed by giving flower plants.

In his addresssing Dr. M N Jayaram, Associate professor ,dept.of E&C spoke about the course and its importance in the field of Research and development .

Chief guest Dr. N Suresh spoke about Role of teachers in building studentsfuture and their responsibilities as a teacher and also he advised teachers tobe in par with the latest technologies.

Dr. B Manoj Kumar, Prof. &teqipco-ordinator spoke about TEQIP and about its various programs that were held all over thenationand its development till date and also about theimportance and remarks of the workshop.

Vote of thanks was delivered by Dr. Shankaraiah, Prof.& head dept. Of E&C.

Momento was given as a token of gratitude for the dignitaries.

Report on Two Days Workshop on “Research Methodology”

May 26th and 27th – 2023

The Research Methodology Workshop was tailor-made to facilitate the academic requirements of the research scholar's student at the JSS Science and Technology University, Mysuru. The two-days trans-disciplinary workshop was conceptualized with the intention of knowledge-building on the fundamentals of research concepts, methodologies, review of literature, publication ethic, research design, hypothesis and processes in addition to providing hands-on training in IPR, plagiarism, synopsis/thesis writing with inputs on the essentials of academic writing.

The objectives of the workshop were:

- ❖ To develop knowledge on the fundamentals of research.
- ❖ To build knowledge on research design, application & data analysis.
- ❖ To develop skills for synopsis/thesis development & academic writing.

Workshop Convener:

Dr V N Manjunath Aradhya,

Professor and Associate Dean Research,

Department of Computer Applications,

The workshop was scheduled on **26-05-2023 to 27-05-2023** offline-mode at CMS Seminar Hall, JSS Science and Technology University, Mysuru. There were around 56 number of participants from various department and industry for smooth conduction of the workshop.

The Inauguration was held on 26-05-2023 at 09:30 am by welcoming the resource person **Dr. Sudharshan K M**, Professor & Director, REVA University, Bengaluru. Followed by a few words about workshop from **Dr V N Manjunath Aradhya**, Professor and Associate Dean Research, Department of Computer Applications, JSS Science and Technology University, Mysuru.

Day One: 26-05-2023, Friday

Session 1: Introduction of Research (10:00am-11:30am)

The first session was by **Dr. Sudharshan K M**, Professor & Director, dept. of ECE, REVA University, Bengaluru who spoke on the Importance, Concept and Types of Research. He said that Research is a process to discover new knowledge to find answers to a question. The word research has two parts re (again) and search (find) which denote that we are taking up an activity to look into an aspect once again or we want to look for some new information about something.

He also mentioned that Exploratory, Descriptive and Explanatory are the three main purposes of Research. Apart from this, He explained that the Research can be classified into Fundamental and decisional Research on the basis of Application, Descriptive and co-relational on the basis of Objectives, Structural and unstructured on the basis of inquiry mode, and Analytical, Fundamental, Qualitative, Quantitative, Empirical Research are other Researches.

Session 2: Defining the Research Problem and Review of Literature (11:45am-1:30pm)

The second Session by **Dr. Prashanth Joshi**, Professor, REVA University, Bengaluru explained how to identify and define Research Problems. He said a research problem is a definite or clear expression [statement] about an area of concern, a condition to be improved upon, a difficulty to be eliminated, or a troubling question that exists in scholarly literature, in theory, or within existing practice that points to a need for meaningful understanding and deliberate investigation. The researcher should undertake extensive literature survey connected with the problem. For this purpose, the abstracting and indexing journals and published or unpublished bibliographies are the first place to go to. Academic journals, conference proceedings, government reports, books etc., must be tapped depending on the nature of the problem

Also highlighted some of useful websites for research scholars:

- Research gate
- ORCID
- UGC – INFONET DLC
- N- LIST program
- Shodhganga
- DOAJ
- Legal Book 500.com

TECHNOLOGY UNIVERSITY, C=IN

Session 3: Plagiarism (2:00pm-3:30pm)

The second Session by **Dr Srinivas Naik**, Professor, UBIT, Davanagere. He describes the rightness or wrongness of plagiarism. Plagiarism is an act of stealing, because another person's work is taken without permission and without giving the original writer due credit. It is fraud because the plagiarist is misrepresenting who created the work. He was major concern in many parts of society outside of the classroom. Novelists, journalists, scientists and researchers, business people, and politicians are all susceptible to plagiarism, and the consequences can be harmful if they do plagiarize. Proper citation in news articles, research studies, or reports intended to inform business and legislation allows people to confirm the information they receive, helping them avoid incorrect or ineffective decisions. He also highlighted the some of tricks to overcome from plagiarism.

Session 4: Testing of Hypothesis (3:45pm-5:15pm)

The fourth Session by **Dr. P Nagesh**, Professor and Dean Management, JSSSTU. Before moving to Hypothesis he was focusing on the different types of sampling techniques that the researchers can adopt from random sampling to non-random sampling methods. He was able to convey the participants on the methods by which adequate number of samples can be identified for a particular type of research. He said a sample design is a definite plan for obtaining a sample from a given population. He also explained the various steps in sampling design like, Universe type, Sampling unit, Source List, Size of Sample, Parameters of Interest, Budgetary Constraint and Sampling Procedure.

This session was mainly focused on:

- Sampling Unit v/s Population
- Concept v/s Construct
- Types of Hypothesis and errors

Day Two: 27-05-2023, Saturday

Session 5: Publication Ethics (9:00am-10:30am)

The session was started by **Dr. C Naveena**, Professor, SJBIT, Bengaluru. He spoke about - What is ethical conduct of research? He started explaining set of principles that distinguish between acceptable and unacceptable behavior and way of conducting a task. These guidelines or principles may vary across countries, disciplines, institutions, and even laboratories. He mainly focused on Falsification, Fabrication, Fraud, Morality, and Publicity of Ethics.

Session 6: Measurement and Scaling (10:30am-12:00pm)

The session was started by **Dr S Manjunath**, Lead Manager, Samsung. He spoke in detail about measurement and scaling with technical and real-time examples. Social issues may provide a broader prospect but it may not suggest a specific one. E.g., understanding economic background of society. The availability of resources like money, time, manpower, etc. also affects the selection of research problem. He came cross types, levels, statistics, sources of scaling error, test of sound measurement, test of reliability, test of practical, importance and scale construction techniques.

Session 7: Research Design (12:15pm-01:30pm)

The session was started by **Dr H T Basavaraju**, University of Mysore. He deliver the importance of design/blueprint and plan in research. The task of data collection begins after a research problem has been defined and research design/ plan chalked out. Research design is a blueprint of a scientific study. It includes research methodologies, tools, and techniques to conduct the research. It helps to identify and address the problem that may rise during the process of research and analysis. He delivered in details about types of design, characteristics, features, phases, elements, survey, need and nature of research design using mango detection case study.

Session 8: IPR (2:00pm-03:30pm)

The session was started by **Mr. Praveen Kumar**, BMSIT, Bengaluru. He explained that a patent is an exclusive right granted for an invention, which is a product or a process that provides, in general, a new way of doing something, or offers a new technical solution to a problem. Furthermore, he said that one of the major functions of the patent system is the dissemination of technical information. Patent information is a valuable and comprehensive source of technical, commercial and legal information that can be used directly for scientific and experimental purposes and as a basis for stimulating the adaptation and improvement of the technology described in patent documents immediately after their publication. He said that intellectual property rights help protect creations of the mind that include inventions, literary or artistic work, images, symbols, etc. If you create a product, publish a book, or find a new drug, intellectual property rights ensure that you benefit from your work. These rights protect your creation or work from unfair use by others.

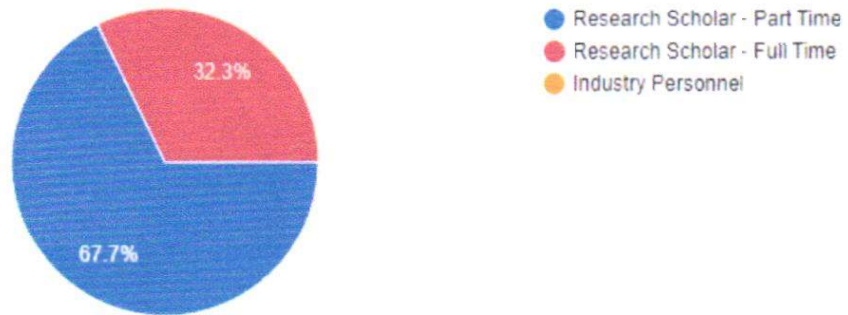

Session 9: Report Writing (3:45pm-05:30pm)

The session was started by **Dr. Keerthi Kumar**, Professor, MEC, Hassan. He outlined the difference between academic writing and general writing and provided his insights regarding the same. Thereafter, he identified several generic issues faced by writers and addressed them accordingly. Some of them are as follows – fixed mindset of not being able to write, lack of creativity, lack of vocabulary, inability to convey one's thoughts through sentences and uncertainty of where to begin the process of writing. He addressed these concerns by providing simple yet resourceful answers. Various types of academic writings were identified by him which are as follows – Essays, Research Papers, Thesis/Dissertations, Research Proposals and Literature Reviews. They were classified on the basis of word count, formality and requirements. The workshop proceeded to its next topic of discussion, namely, common errors made by writers. Informal language, improper use of words/synonyms, punctuation, lengthy sentences, passive voice, tense usage, plagiarism of texts, consistency and typos were identified to be the most common mistakes of a writer and were discussed accordingly.

Feed-Back of workshop was collected using Google Forms

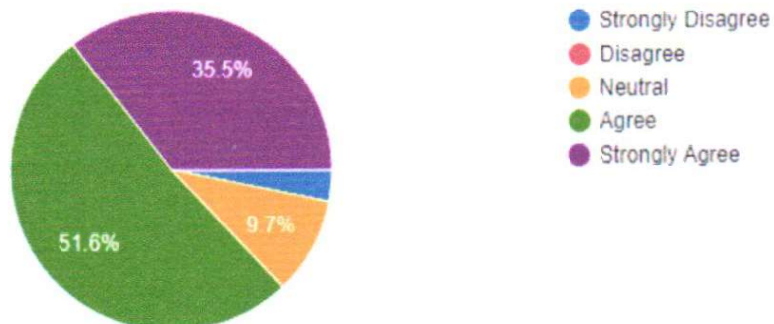

Designation

31 responses

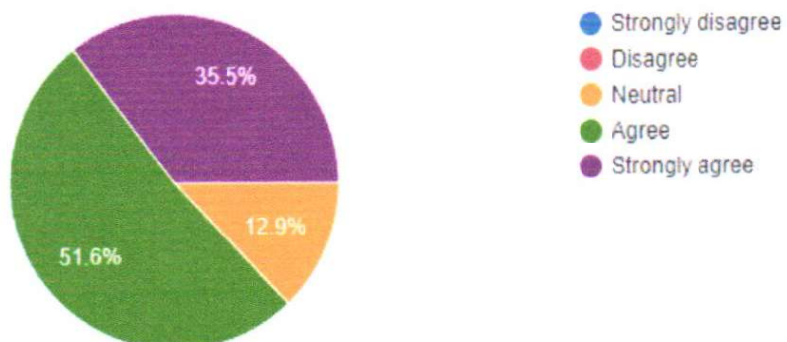

The objectives of the workshop was met to my satisfaction

31 responses

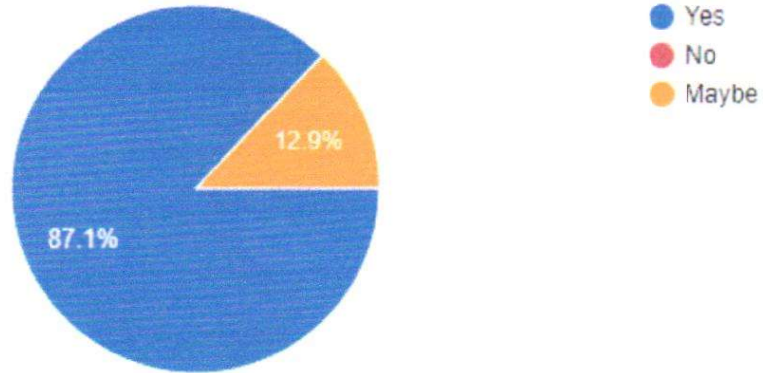

The topics presented were relevant to research

31 responses

I would be interested in attending a follow-up, more advanced workshop

Session- III	2.15 pm-4.15 pm	Group Presentation	Team Members Participants
Session- IV	4.15 pm – 4.30 pm	Valedictory & Distribution of Certificates	
Tea Break: 4:30 pm			

At the end of the program on 25th March 2022, presentations were organized on various themes of Research methodology by forming teams consisting of 4 to 5 members. Best of four teams were selected based on the recommendations of the expert committee.

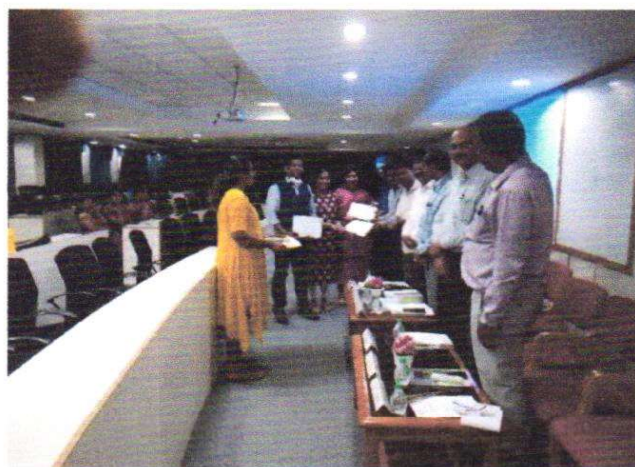

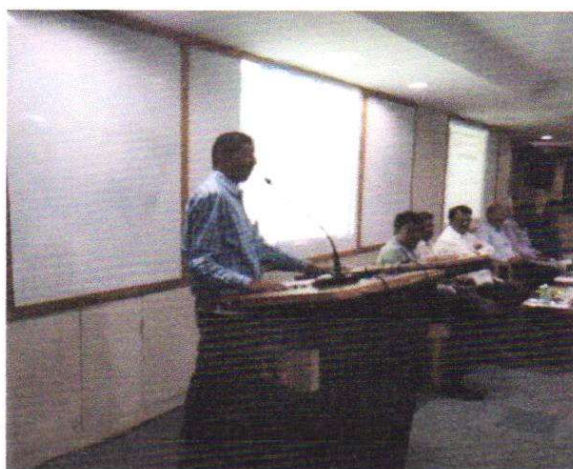

The Valedictory program was organized at the end of the program on 25th at 4.30 pm. Dr. A M Ramesh, CEO, KSTA had participated in the program. All the Deans of JSSSTU (Prof. P Nagesh, Dean Management; Prof. P Mallu, Dean Science and Prof. Manoj Kumar, Dean, Academics). Dr. H Honne Gowda, Dean (Research) presided over the function. Participation certificates were given for all the participants and also appreciation certificates and memento were given to all the best four teams who
