DIAMOND JUBILEE YEAR :: 1963 – 2023

DEPARTMENT OF ENVIRONMENTAL ENGINEERING

WORLD ENVIRONMENT DAY 2023

The **World Environment Day (WED)** is celebrated annually on 5th June and encourages awareness and action for the protection of the environment. It is supported by many non-governmental organizations, businesses, government entities and represents the primary United Nations outreach day supporting the environment.

First held in 1973, it has been a platform for raising awareness on environmental issues as marine pollution, overpopulation, global warming, sustainable development and wildlife crime. World Environment Day is a global platform for public outreach, with participation from over 143 countries annually. Each year, the program has provided a theme and forum for businesses, non government organizations, communities, governments and celebrities to advocate environmental causes.

As the largest global platform for environmental public outreach, World Environment Day has been celebrated by millions of people across the world since its establishment by the **United Nations Environment Programme** during the **Stockholm Conference on the Human Environment in 1972**. The UNEP has called for greater efforts to limit waste and transition to a circular economy, as well as releasing a Beat Plastic Pollution Practical Guide and encouraging social media posts under the hashtag **Beat Plastic Pollution**.

More than 400 million tonnes of plastic are produced annually, with less than 10% recycled and an estimated 19-23 million tonnes ending up in bodies of water each year. Microplastics also pose a threat to health, with each person consuming an estimated 50,000 plastic particles annually.

DEPARTMENT OF ENVIRONMENTAL ENGINEERING

Street play performed by students on the account of World Environmental Day an Awareness program on Environment. The program was held near the entrance of the Environmental Engineering department. The head of the department, professors, staff and students of various departments were present at the event. The event began with watering plants. An awareness street play performed by the students was about depicting Youth not being aware of World environmental day, the political minister behaving irresponsibly behind the camera, and the plight of the housekeepers. There were songs in the middle of the play with also made the play enjoyable and kept it sarcastic. At the end of the play, the housekeeping staff were invited and given tokens of gratitude by offering them bouquets and were called "Ambassadors of cleanliness". Students were made aware of keeping the campus free from plastic.

Tree planting is recognized as one of the most engaging, environmentally-friendly activities that people can participate in to help the planet when done properly. Trees provide numerous long-term and short-term benefits. They not only look nice, but they also remove and store carbon from the atmosphere, slow heavy rain and thus reduce the risk of flooding, improve air quality, and reduce the urban heat island effect by reflecting sunlight and providing shade.

DIAMOND JUBILEE YEAR :: 1963 – 2023

DEPARTMENT OF ENVIRONMENTAL ENGINEERING

Students from department of Environmental Engineering actively participated in awareness program for JSS Public School. Activities done in the School involved: interactions with the students about waste management activities on trash coin, waste segregation, olden VS modern, water on life, water cycle connection.

Plastic in life or life in plants, find it relay on cradle to cradle concept, pollution solution game, water audits and solution for problems. At the end, conducted debate computation to the students about waste and water management and prize distribution were given to the student.

We born from the Earth, we return to the earth and we sustain by earth. Environment in which we live is very important and it effect our lives. students created awareness and put plans to provide a reliable and efficient services for the collection , transportation and collection of waste.

Students interacting during the session

Students were made aware on advantages, disadvantages, benefits, uses of waste management and conserving water. Many students were actively looking forward for future growth of future sustainable environment and were excited to learn new things which will help them in their future. Entire team was thankful for the Principal, JSS Public School for giving a great opportunity.

As part of World Environmental Day-2022, Department of **Environmental Engineering**, JSSSTU organized campaign rally in the campus to create awareness about Environmental protection and conservation. The programme began with watering the pot and a song was sung on Environment protection by the students.

Dr. C Nataraju, Principal (I/C), S.J.C.E, JSS S&TU inaugurated the celebration of World Environmental day by watering the plant. He spoke about the importance of Environment Day celebration and addressed on the theme i.e., "**ONLY ONE EARTH**". He also spoke about the concept of 3Rs i.e., Reduce, Reuse and Recycle and its importance from the point of "Only one Earth".

Dr. Sadashiva Murthy B M, Head of the department also addressed the student community regarding the importance of "Mother Earth". Dr. B. Manoj Kumar, Dean Academic was present in the event and addressed the gathering.

Awareness Rally was organized at JSSSTU by the **Environmental Engineering** Department in association with **Project ReachOut** and **Balaga** Club of SJCE near the admin block entrance. The Rally began with the team balaga echoing the slogans on environmental awareness and the team Project ReachOut leading the way with the posters. The event began from the admin block, where the Balaga team performed a skit which emphasizes on avoid usage of plastics in day to day life. Later planted the saplings in the premises of Environmental Engineering and Civil Engineering department of the campus by the dignitaries. Mrs. Parinitha T Niranjan, Assistant Professor and Dr. Vishishtta Nagaraj, Assistant Professor, Department of Environmental Engineering coordinated the event.
